Further Representation

A representation has been received concerned about potential allocation of the £34,624 Open space s106 Agreement for use by the baseball team on Western Park, and considers the funding could be better used such as Tennis Courts, lighting on footways and replacement benches.

Further Consideration

The proposed use of the s106 Funding is towards improve play provision and improved basketball facilities in line with the recommendation of the Parks and Open Spaces Team who are responsible for delivery and maintenance of the improvements. These need to comply with the relevant policy requirements in respect of open space and sports enhancements.

Recommendation: Conditional approval

Representations

One further representation received from an objector whose comments are already included in the main agenda. They provide the following additional comments:

- Vehicles observed using the centre but choosing not to park in the centre car park
- Existing facilities elsewhere, could they be used?
- Initially local residents informed centre was to be small and there were no plans to increase numbers.

Further Considerations

In relation to the comments above highways matters have been considered in the main report and it is considered adequate parking is provided for the proposal. The decision by an attendee to not use the designated parking is beyond the remit of the planning authority. Parking on the public highway/footpath in an unacceptable manner would be a matter for the highway authority/police.

In terms of using other existing facilities and expanding the planning authority has to consider the acceptability of each planning application on its own merits and is not in a position to direct use of other facilities.
