COMMUNITY REASSURANCE / SAFETY	<p>All to note the presentation given at the meeting, a copy of which is attached for information.</p> <p>All to note:</p> <ul style="list-style-type: none"> • Despite the perception that the Belgrave Ward has a high level of crime, statistics show that it is quite a safe area. • The Police and Council work together to address matters of concern. For example, shop workers were loaned radios to improve contact between them during a period of thefts from local shops. • Work is done to raise awareness of safety during festivals. For example, reminding people not to leave diva candles burning unattended and making sure that jewellery is not conspicuously displayed. • Ward funding has been used to help improve safety through funding alley gates and locks. • Additional funding to share with the Police recently has been agreed for Neighbourhood Watch schemes. • Two CCTV cameras have been purchased with funding from wards in the east of the city. These are mobile cameras that can be deployed to areas of concern on a temporary basis. • To help people leave lights on when their property is empty, the Council has supplied the Police with timers to be sold to residents at cost price. • Grants are available for some small events that bring the community / neighbours together and improve interaction. <p>Residents invited to contact the Council or the Police if they are interested in developing a Neighbourhood Watch scheme in their area.</p>

		<ul style="list-style-type: none"> • Thanks were extended to the community for the way in which it worked together on the murder of Mr Ramnikbhai Jogia. The information provided enabled the investigation to be fast moving. Four people had now been charged and others were under investigation. • The Police were supporting the Lions initiative to encourage people to put a pot containing details such as health conditions, medications and details of contacts in the fridge. This information could then be used by those attending emergency situations. • Belgrave is a safe area in which to live. However, prevention of crime is important and people need to consider their own safety through measures such as taking care not to have jewellery on display and leaving lights and a radio on when away from properties. Advice on other crime prevention measures is available. • Issues currently being addressed by the Police include: <ul style="list-style-type: none"> ○ anti-social behaviour in Latimer; ○ robberies in Rushey Fields, (the victims of these appeared to be young people walking home from school with phones in their hands); ○ the slight increase in burglaries in Rushey Mead; ○ disorder in Martin Street; and ○ ATM distraction thefts. • There had been approximately 20 arrests in the last month, including one for the Rushey Fields robberies. <p>All asked to let the Police know any information relating to disorder in Martin Street by groups of young people.</p> <p>All asked to make others aware of the recent occurrences of ATM distraction thefts and assist others to improve their own security where needed.</p> <p>All encouraged to speak to the Neighbourhood Police team about any concerns, including issues that the team could focus on.</p>

Several of these have been fined and work is ongoing to help businesses make appropriate arrangements for the disposal of their waste.
