## CITY WARDEN SERVICES

### ADVICE FOR RESIDENTS

Householders are legally responsible for all household waste produced on their property. Most household waste can be disposed of in your bags or wheeled bin.

If you need to dispose of large items such as sofas, fridges there are several ways to do this legally .

- Take large items to your council run tip . Find out about opening times on line.
- Consider hiring a skip . They can be value for money and you don't need a permit if its on your own property.
- Leicester city council can dispose of your large waste items as part of the bulky waste collection service .
- You can subscribe to a garden waste collection for an annual fee.

### Advice for businesses

- Under the Environmental Protection Act, every business has a duty of care when it comes to dispose of it's waste: If you are not meeting your legal responsibilities it could result in a fine or imprisonment.

#### Here are a few tips

- It is a legal requirement for businesses to use a licensed waste carrier to remove their waste—check they are registered.
- If you run a business from home you will still need to dispose of your waste correctly - you should not use your home waste collection.
- Provide a written description of your waste to the company collection your waste
- Keep signed copies of transfer notes for 2 years .
- Take action if you think your waste is being mishandled by those who remove it: you could be fined if your waste is fly tipped.
