

Rally Park Active Travel Fund Scheme Update

28 August 2024

Recap

- £1.8m received from Active Travel England to improve walking, wheeling, and cycling through The Rally
- Scheme designed to replace existing shared use paths with segregated footways and cycleways, alongside improvements to lighting, environment, planting, and amenities
- Connects well with existing and newly delivered routes to the west of the city, improving quality of north-south and east-west journeys.

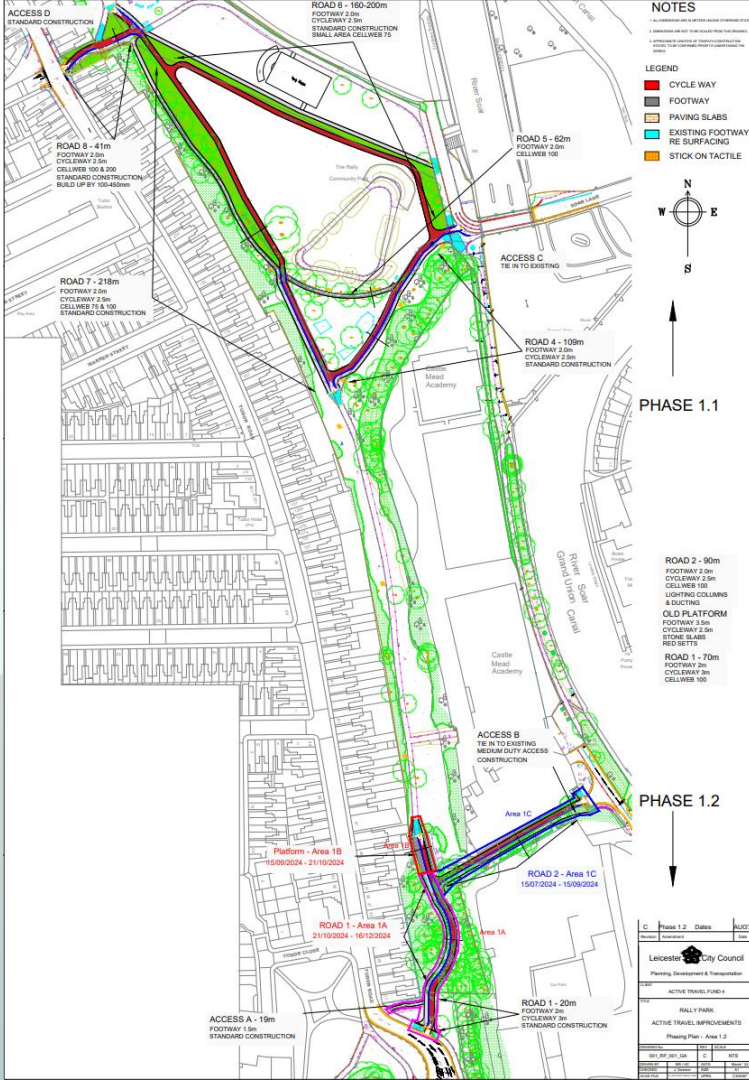

Project summary

- Improve quality of entrances to the park to ensure full accessibility for all users
- Tackle ongoing issues with crime and anti-social behaviour by increasing visibility along walking paths
- Remove ongoing conflicts between pedestrians and cyclists by installing segregated facilities
- Provide appropriate surface along desire lines
- Improve quality and quantity of vegetation within the park
- Improve access to schools

Phased approach

- The project is split into phases
- Phase 1 currently on site
- Phase 2 (connections within the park) currently in design for future funding
- Phase 3 (northern extent into Stokeswood Park) currently in outline design
