It's a great idea to have a fruit and vegetable in the middle of the town . The town really needs it due to market relocated

I can't wait for them to open

With the market closing down I was thinking I won't go to town anymore to buy my groceries . It's amazing people think to provide this tipe of services in the town centre Good luck to them

Subject: Humberstone gate

Humberstone gate is always busy I'm a regular in the town and never heard something better luckily people promote healthy lifestyle still not only fast food because that's all what we see in the town

Think at the future think at our health think of our children they should learn what is best for them great idea when they will open ?

It's a really good idea as fresh fruit and veggies are really hard to come by when you're shopping in the town I'm my opinion instead of buying my toddler a chocolate or sweet I better by for him a apple or banana during my visit to the town .

Today during my shopping time was two young boys who ask people opinion about the fruits and veg and advise us to tell our opinion , and I find that very interesting 😊

The great idea of opening a fresh fruit and vegetable in town is amazing . People can grab their fruit and vegetables on their break time or on the way home and have a freshly cooked dinner . In our town the fruit and veg variety is very low and will be really good for our community to get something new .
