### **38. MINUTES OF PREVIOUS MEETING**

RESOLVED:

### **39. WELFARE REFORM CHANGES**

Reiza Khan, Welfare Rights, gave a presentation on the proposed changes to the benefits system which were to be implemented from April 2013.

During the presentation Reiza made particular reference to the following key points:

- Council Tax Benefit would be replaced by Council Tax Support from April 2013 and local authorities would receive 10% less government grant for the scheme leading to recipients paying more towards Council Tax. It was estimated that this could impact upon 40,000 people in the City.
- There would be a Benefit cap of £500 per week for families and lone parents (£350 for singles) which would particularly affect families with 4 or more children.
- Housing Benefit paid to people of working age would be changed to reduce the level of eligible rent by 14% for 1 extra bedroom that was unoccupied and by 25% if two or more bedrooms were unoccupied. The level of benefit would then be calculated on the lower amount of eligible rent.
- The Disability Living Allowance would be abolished in April 2013 and replaced with a new scheme that would cut out the lowest level of allowances. Current recipients would be gradually re-assessed from the old system to the new points based system.

- A new system of Universal Credits would come into operation from April 2013. Universal Credits were designed to simplify the current large number of means tested benefits into one payment. New claimants and existing claimants with changed circumstances would transfer to Universal Credits in October 2013. Existing claimants, who could benefit from Universal Credits, would be transferred from April 2014 and remaining claimants would be transferred from the end of 2015 to the end of 2017.
- Some of the existing premiums, including disability and carers allowances were to be abolished. It was envisaged that claimants would not be worse off at the point of change over; but there would be a gradual reduction in the level of benefits over a period of years.
- The qualification criteria affecting Pension Credits were also changing. In future, Pension Credits would only be available when the youngest person in the partnership reached pensionable age.
- Future Payments would be made monthly and be paid direct to the claimant and only one claimant per partnership. It would then be the claimant's responsibility to pay their rent and Council Tax.

Reiza referred to the appeals process and to the high levels of appeals which had already been received. It was reported that Incapacity Benefit appeals had caused significant pressures as medical evidence was required to process each case. It was also reported that the process being undertaken to assess whether people were fit for work had received a large amount of criticism.

In reply to questions Reiza confirmed that details of the proposed changes had been issued to all people that were likely to be affected with their council tax bills.

The need to ensure that information was disseminated effectively was raised and it was noted that many people in the Ward who would be affected did not use English as their first language. The links to the offices of the Department of Work and Pensions were reported.

In conclusion and having regard to the concerns reported above, Councillors and members of the community asked that as well as regular meetings with the Department for Work and Pensions, separate contact be made with them by officers of the Council to ensure that relevant information and support is provided to residents of the Ward.

In closing the report it was noted that further help and assistance could be obtained by contacting the Welfare Rights Helpline - 0116 2568211 or the Revenues and Benefits Service - 0116 2527006. The Community Legal Advice Service also provided advice.

Reiza was thanked for his attendance and report.

#### **40. TRANSPORT STRATEGY UPDATE**

Robert Bateman, Team Leader, Highways & Traffic Design, updated the meeting with transport issues concerning the Ward.

He referred to the proposed works to open up Vulcan Road following consultation with residents and commented on the delay in commencing the physical works which had been due to the necessary legal process.

It was suggested by the Chair that, in view of the delay with the physical works, residents be informed that the scheme had been approved and advised of the likely commencement date.

Robert reported that double yellow line parking restrictions at various junctions were to be extended to prevent problems currently being experienced by refuse collection vehicles. These junctions included those within the streets recently made into one-way streets as part of highway improvement works in the Ward.

Members of the community thanked Councillors and Officers for the successful introduction of the one-way scheme and requested that the Mere Road area also be considered for a similar highway improvement scheme, possibly by the introduction of parking restrictions.

In respect of the recent road gritting operations, the primary and secondary gritting routes were described in response to concerns raised. It was suggested that the roads around Hartington Road be considered for inclusion on the list of approved secondary routes, it was also noted that grit bins were located in that area for residents' use.

In reply to a question the differences between the extension of existing parking restrictions, the introduction of restrictions as part of a wider scheme, and the introduction of new restrictions were explained.

It was clarified that the Traffic Regulation Orders required for new restrictions were often held in lengthy priority lists and this explanation was reported as the probable reason for the delay affecting the suggested introduction of restrictions in the Apollo and Atlas Road area.

The requirement to ensure effective enforcement was highlighted and problem areas where greater enforcement action was required were raised by residents. These problem areas included locations where cars were parked adjacent to traffic calming measures and road humps which led to an unreasonable restriction of the carriageway.

In conclusion the Chair reported that a 'patchwalk' site visit was to be convened where Ward Councillors and community representatives would meet to walk around the Ward with officers to identify traffic and transport problem areas.

The transport update was noted and Robert was thanked for his attendance.

#### **41. POLICE AND COMMUNITY SAFETY UPDATE**

It was reported that due to an operation in the Ward the Police representatives were unable to attend the meeting. The apology was noted.

Nazira Vania, Anti-Social Behaviour Co-ordinator, Community Safety Team, referred to her ongoing crime prevention work in the Ward undertaken in liaison with the Police.

She commented on the consultation exercise undertaken prior to the removal of hedges around Spinney Hill Park and reported that instances of anti-social behaviour had reduced as a result of the hedge removal works. In reply to questions Nazira referred to the overwhelming support of residents to have the hedges removed following the consultation and commented that she understood that some of those residents consulted had wanted the hedges to remain.

In conclusion Nazira reported on the youth intervention work which was looking at the needs of young people and advised of activities being run. She reported further on the possible formation of the Highfields Late Lounge which was a proposal for a youth engagement project to provide activities targeted at preventing anti-social behaviour.

In the absence of the Police it was reported and noted that the crime statistics for the Ward were available online on the Police website.

Nazira was thanked for her attendance and report.

#### **42. CITY WARDEN SERVICE**

Darren Evans, City Warden for the Ward, informed the meeting of his enforcement and educational activities and reported on the numbers of fixed penalty notices issued.

He commented in particular on the work being undertaken to reduce fly tips, dog fouling and cars for sale on the street. In respect of the St Matthews area he advised that a litter-pick and clean-up had been undertaken in liaison with Housing Officers and residents.

In conclusion Darren informed the meeting of a reward which had been offered for information relating to recurrences of graffiti and he displayed a poster showing the graffiti 'tags' concerned.

In response to comments and questions it was suggested that a greater number of litter bins could be provided in some areas. It was considered that careful consideration of the location and design of bins would help to prevent littering. It was also proposed that the litter-pick and clean-up activities could be extended to other areas of the Ward including Spinney Hill Park.

Darren was thanked for his attendance and report.

### **43. WARD COMMUNITY BUDGET**

#### **A) CHAMPION BOXING CLUB**

The Chair introduced representatives of the Champion Boxing Club who had displayed information, including awards and certificates, at the Information Fair prior to the formal part of the meeting.

Mr Muzza Ali was invited to address the meeting. He informed the meeting of the Club's activities since its formation in 2010 and referred to the work undertaken with youngsters to improve their fitness through non-contact boxing. Muzza commented that the Club also educated youngsters on the dangers of drug and alcohol misuse and on the benefits of healthy living and diet.

Members of the community were encouraged to visit the club and details of the training programmes for both boys and girls were made available.

Muzza was thanked for his attendance and for addressing the meeting.
