

City Wardens North Evington Update

Duxbury Street; Complaints of bird feeding from residents. Advice letters have been sent out to residents and the area is being monitored for any evidence of bird feeding. So far, we have seen no signs of this since sending out the advice letters.

Woodgreen Road

Complaints regarding bins out on the street and fly-tipping on private land. Richard has mainly been working on this. Residents have been served notices to keep their bins off the public highway with the exception of bin collection day. Bins are no longer on the road.

Fly-tipping is continuing on this site and the residents will be served notices to have this cleared and to keep the area clear. This is still work in progress.

City Wardens joint working with Police.

Paan spitting on resident's front doors and on the pavement. Joint undercover operation with Police tackling Paan spitting in North Evington in particular Green Lane Road, St Saviours Road, Sparrow Park, East Park Road and surrounding streets to these locations.

Signs have been put up by the Police in English and Gujarati informing road users of penalty for spitting will result in £150 fines. Operation with police has been successful and Fixed Penalty Notices have been issued for Paan spitting observed by myself and PC Neil Patel when on patrol.

Drinks Den observed in North Evington.

Currently the location cannot be disclosed due to on going investigation by Police into possible drinks den that has been uncovered in the area while we were investigating other issues as part of our joint working.

Nottingham Road

The area is continuing to be fly-tipped. I have had one bin removed from the area which was outside Chai-Walia. There is one more bin remaining on the opposite side road which we are looking to have removed, as we are unable to locate who it belongs to.

We approached Paddy Power who claim the bin is not there's. Arrangements are in progress to have this bin removed from the street to help discourage further fly-tipping.

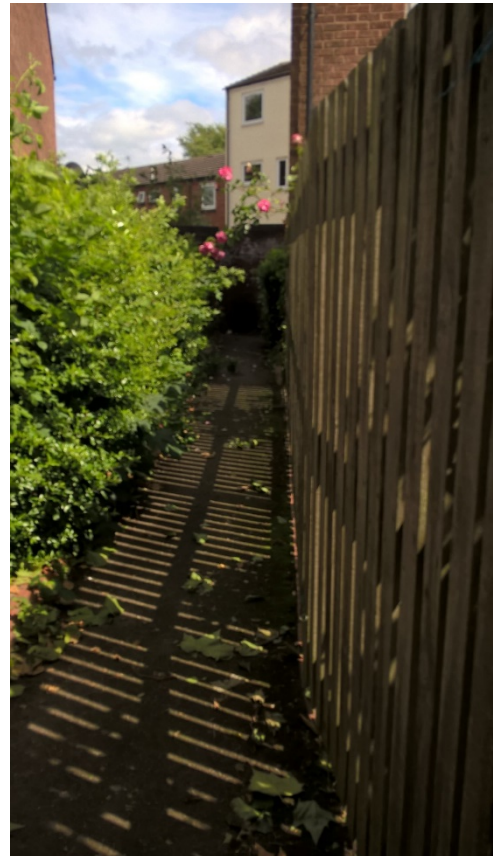

Currently a camera is on Nottingham Road to observe fly-tipping and investigations are

ongoing with the recent fly-tipping that have taken place on the street.

Prestwold Road

We have been out to this location due to a complaint from a resident regarding littering from factories and units opposite the houses. The companies were served Section 33 Notices by Richard which returned back as all having waste contracts and companies told to keep their bins off the street unless it is bin collection day to prevent any black bags or other waste being placed near the bins.

Other issues included staff from the factories crossing over during lunch breaks and leaving cigarette butts on the pavement. We spoke to the owner of the business who

informed us his staff do not do this, as he has a cigarette bin located on his building wall. He said that he will mention it to all his staff and remind them that they are to remain outside the factory near the cigarette bin and not across the road. No further complaints have come in regarding this matter since that conversation.

Cars being fixed on the public highway-various locations

There have been some complaints regarding cars being repaired on the road. We have visited these locations and no signs of cars being repaired have been observed to date. We will continue to monitor these areas for now.

Redwood Walk

Complaints regarding lit fires, sanitary waste and waste in general. On patrolling the area no signs of this were observed but we will continue on with investigating this for a while.
