Please summarise your concerns about this application:
<p>The proposed venue for the event is surrounded on each side by residential properties and is situated in a generally quiet area. The event is of concern as it has high potential to cause loss of amenity and disruption to nearby residential properties by way of noise from amplified music and voices. Additionally, when the event ceases, noise from people exiting the property is also of high concern. The property is surrounded on each side by residential properties and is situated in a generally quiet area.</p> <p>An event was held previously by the applicant at 100 Howard Road. This event led to a complaint to the noise and pollution team and further reports of disruption from music and voices from other neighbours at the time.</p> <p>Upon speaking with the applicant, the event will mainly be held in the garden of the property. They are willing to suspend the live music and monitor noise levels at the property. However, this does not address all concerns and the event would still potentially cause significant disruption to nearby residents.</p>

I recommend refusal of the TEN as it does not promote the licensing objective 'Prevention of Public Nuisance'.
