

Appendix B1

Application for alcohol licence

We the residents of coral street, and the neighbouring streets, would like to submit our objection for the application of an alcohol licence made by Pavan Rajesh Pattni for Units 2,4,5,6,7,8, 2-16 Loughborough road, LE4 5LD.

Our grounds for the objection are as follows;

Our main concern is the possibility of an increase in crime and disorder in our community. Which will only cause further public nuisance.

Our main objection is the serving of alcohol could attract unsavoury characters and is not fair on the people residing nearby. The residential area is not an appropriate place and is conducive to the environment.

Youth often congregate outside and indeed during the recent riots had mobilised themselves around the area, and there is no doubt that the consumption of alcohol would have further exacerbated the violence and public disorder which already occurred. The area already suffers from drug abuse and consumption of laughing gas. Alcohol will only add to the problem even more, when the community is seeking to live in harmony.

We would also like to point out that the public notice was only displayed on the weekend of the 10th of June, and indeed has been tampered with making it unclear as to when the timeframe of objection would still be considered.
