

Freemen Ward Action Plan 2009-10 Priorities for Freemen Ward

Next steps

1. The initial Ward Action Plan (WAP) for Freemen was developed with the help of input from the ward meetings held in mid-2008. Funding relating to the Plan was to relate to, though not specifically be confined to, environmental and street scene issues.
2. Representations arising from concerns voiced in the WAP help lead to demolition work on the old Velodrome site.
3. In 2009-2010, ward meetings will be looking specifically at transport, road and highways issues, and the WAP should be amended to take these into account.
4. Additionally, there has been comparatively little input from residents on the Saffron estate. However, MORI conducted a major survey on, among other areas, the Saffron estate.
5. The results take into account a broad range of issues from specific tenants' issues about the management of their homes. But it also takes into account views on a wide range of other issues, including crime, environmental issues and transport-related problems.
6. A copy of the report on the findings of the poll relating to Freemen Ward is to be presented on 10th June 2009, and the complete report is available to view on the Council's website at the following link:
<http://www.cabinet.leicester.gov.uk/ieListDocuments.aspx?CId=467&MIId=2849&Ver=4>
or by contacting Heather Kent on 229 8816. Copies will be available at the meeting. It is recommended that the findings from the MORI poll be used to update the Ward Action Plan.
