4. Short description of proposal. Please include information on **how the money will be spent, who will benefit, when they will benefit, and how we will know when the proposal has been successful.**

It is important that your answer to this question is clear, because we will only pay the costs when we can see evidence that the outcomes you describe here have been achieved. You can provide further details in your supporting information if you want to.

Currently the majority of the garden waste produced on the 106 allotments is burnt.  
The consequence of this is to increase the carbon footprint of the Society and because we are surrounded by residential areas can cause annoyance to our neighbours.  
If we had a shredder chipper then we would be in a position to produce mulch and compost that could be recycled back on to the land whilst reducing the need for burning waste thus reducing our carbon emissions and avoiding unnecessary annoyance to our neighbours.
