Hello Rachael:

Yes, sorry. I would like to object to Foxie Browne's application because of the noise pollution that will inevitably increase in this area of the city when the place closes for the evening. People leaving this venue at 3AM will be making noise as they leave! As well as an increase in crime and disorder into the area of the Highcross where the restaurants are located because by 3AM this area will be for the most part closed for the night. With no one around, the opportunity to commit crime increases because there is no risk of detection. Rachael, does this satisfy the representation?

Cheers,
