

Dear Sir

I have read the notice on the wall of Burnham News, 72 Burnham drive LE4 0HP. They have applied for a licence to sell alcohol, I'm completely against this as we already have a off licence only 20 yds away from this shop, so we don't need another shop selling alcohol, to add to the antisocial behaviour and litter cans bottles in the street and my front garden. This shop has already turned into a fast food take away how did they get a licence for this. They also have drilled a hole in the side wall and put a pipe through into a public way which constantly drips I can send you a pic of this if needed. The pipe comes from the fridges which condense by law this should be fed into a drain this needs investigating from the council. This shop is a News agent not a fast food or alcohol shop.

Yours

PS

I have also noticed that they have applied for extended opening hours this will add to more antisocial behavior. This shop on many occasions stays open way passed his closing times so extending the opening times is completely wrongy.
I wait for your response.
