Subject: Licence application for 95 Queens Rd, Clarendon Park

Dear Licensing

I have a concern with the new licence application for 95 Queens Rd, Clarendon Park, Leicester.

Whilst I encourage the buildings reuse and I don't mind a licence as such, I feel the midnight licence , particularly with live music will disturb local residents. The former bar at this premises had issues with this especially, when they opened the upstairs rear window onto a residential street.

If possible could an earlier finishing time be encouraged?

Thank You
