Licence official,

I see the notice on this shop and would like to offer my opinion on this shop. I have been using the shop for 5 years and never ever seen or been offered any items like handbags, toys, electrical items and perfumes at this shop.

It says the police believe it is in the best interests to revoke the licence. I have been a customer here nearly everyday and believe I have more experience in this shop then they do. I find this recommendation by the police as very poor judgment.

The name on the notice says Kapil Vaghelia. I find him to be honest, trustworthy, helpful and someone with a very big heart who always tries to help everyone.

Thank you
