Subject: RE: bruin street shop

hi my address is . at the top of bruin there is already an off-licence where often men like to hang around with beers and also on Ross walk during the day men drink and get drunk and in summer months often sleep there on the street children walk by the shop daily too and from the school including my grand children who already have to contend with walking by drunk people a bit further up to then have it directly in front of the school.

I
object to 116 bruin street to be a off license we have many off licenses around this area and anti social problems to do with alcohol and another off licence will only add to more problems.
