Subject: objection to alcohol licence

I am very concerned to note that a licence is being re-applied for at these premises. As I am already very unhappy with the amount of people drinking alcohol in the area, I feel that this will become much worse if we have an off licence at both ends of the street. It is normal to have people sitting in doorways or outside of the shops drinking. I feel very intimidated walking past these people. It will also cause more mess in the area as they never clean up after themselves and they think nothing of using doorways as a toilet. There are children who attend the primary school in the street which includes my grandchildren who are very likely to be subjected to various forms of unacceptable behaviour at some point in time.

Would you please consider my concerns regarding this matter.

Thank you
