# **CORPORATE GOVERNANCE: ANNUAL REPORT FOR 2005/6**

## REPORT OF THE DIRECTOR OF RESOURCE

## 1. <u>PURPOSE OF REPORT</u>

The purpose of this report is to enable compliance with the requirements of the Council's Corporate Governance Code by carrying out an annual review of Corporate Governance arrangements for the year 2005/6 and to enable the Council's Leader and Chief Executive to sign a Corporate Assurance Statement.

### 2. <u>SUMMARY</u>

This is the third annual review of Corporate Governance arrangements following the adoption of a local Code of Corporate Governance in 2002. The Code builds on the private sector's experience and makes use of a governance system to provide a framework of accountability as a basis for continuous improvement in the delivery of services.

The annual review has been carried out in consultation with lead officers responsible for all key policies and procedures which form the Council's Corporate Governance Framework. Wherever possible assurances have been given but where this has not been possible an action plan has been presented with the aim of enabling assurance to be given within a reasonable timescale. The outcome is summarised in **Appendix 1**.

Corporate Governance procedures are subject to an annual audit. The outcome of the review for 2005/6 are included in the attached supporting information and Internal Audit will repeat the process in 2006/7.

### 3. <u>RECOMMENDATIONS</u>

3.1 **Resources and Equal Opportunities Scrutiny Committee** is asked to review the position as summarised in this annual report and to forward any comments to Cabinet for consideration.

## 3.2 **Cabinet is recommended to:**

- 3.2.1 Review the position as summarised in this annual report together with any comments received from Resources and Equal Opportunities Scrutiny Committee; and
- 3.2.2 Authorise the Service Director Legal Services to arrange for consultation with the Standards Committee and then produce a final form of Corporate Assurance Statement in consultation with the Council's Leader and Chief Executive.

## 4. HEADLINE FINANCIAL AND LEGAL IMPLICATIONS

Covered in the report.

### 5. <u>REPORT AUTHOR</u>

Peter Nicholls, Service Director - Legal Services, x6302

# **CORPORATE GOVERNANCE: ANNUAL REPORT FOR 2005/6**

# SUPPORTING INFORMATION

# 1. <u>REPORT</u>

# Corporate Governance Code

- 1.1 In May, 2002, the Council approved and adopted a local Code of Corporate Governance which was seen to be consistent with the principles and reflected the requirements of the "CIPFA / SOLACE Framework, Corporate Governance in Local Government: A Keystone for Community Governance". A copy of the Code is available on the Council's web site.
- 1.2 CIPFA / SOLACE has defined Corporate Governance as "the system by which local authorities direct and control their functions and relate to their communities". The system needs to be able to demonstrate clearly:
  - Openness and inclusivity
  - Integrity
  - Accountability

## **Annual Review**

- 1.3 There has been a need to establish arrangements to review and publish statements on the extent to which the Authority is complying with good practice, and on the operation and effectiveness of its Corporate Governance arrangements.
- 1.4 There is a need for annual consideration of the extent to which the Authority complies with the elements of Corporate Governance set out in the Code. A statement must be published setting out the extent of compliance and proposed actions to address non-compliance. Systems, processes and documentation will need to evidence compliance, and there is a need to

identify those responsible for monitoring and reviewing systems, processes and documentation identified.

1.5 Lead officers have been appointed for all key policies and procedures, as set out below. They are responsible for satisfying themselves that the policies and procedures work properly in practice and must provide the necessary reports and assurance statements to the Town Clerk to enable the annual report to be co-ordinated.

| 47          | Effective administration of financial affairs (Finance Procedure Rules and associated guidance) | Chief Finance Officer                                |
| 50          | Health and safety policy  | Service Director - Human<br>Resources and Equalities |

1.6 The outcome of the Annual Review for 2005/6 is shown as **Appendix 1**.

- 1.7 The Chief Executive is the officer responsible for signing off an "Annual Assurance Statement", together with the Leader of the Council.
- 1.8 Oversight of the Council's corporate governance arrangements is a function of Cabinet within its terms of reference relating to Finance and Resources. Corporate Governance also falls within the remit of Resources & Equal Opportunities Scrutiny Committee and the Authority's Standards Committee which are receiving this report for comment.
- 1.9 Rather than delay the process, given Internal Audit's recommendations, it is proposed to report to the Standards Committee when it next meets on a date to be fixed following Cabinet.

## **Internal Audit**

1.10 The 2005/6 Internal Audit Operational Plan included provision for audit review of Corporate Governance procedures. One element of this was a sample check of the management process for giving assurance on the Annual Assurance Statement for 2004/5.

From the information reviewed it was concluded that:

- The process behind the Annual Assurance Statement continues to work well.
- This is the second year that it has been audited. A good system is now in place and this reflects a wider appreciation of the importance of Corporate Governance across the City Council.
- 1.11 However, some areas for improvement have been identified and recommendations have been made to strengthen the existing system further as follows:
  - Assurance Statements should be completed, signed and dated as near as possible to 31<sup>st</sup> March, and the timetable should be tightened so that the Annual Assurance Statement can be signed as soon as practical after the year end.
  - Lead officers should record the date they sign and support the position statements.
  - There should be clear cross referencing to supporting evidence.
  - It was found that the Community Plan process in the 2003/4 Annual Assurance Statement no longer appeared in the 2004/5 Statement. It had been incorporated into the Performance Management Framework. There should have been an audit trail.
  - Each year's Annual Assurance Statement should be clearly linked to that of the previous year, to include:
    - Tasks completed with a completion date.
    - Tasks ongoing with a realistic target date.
    - Tasks that have been carried forward from one year to the next with an explanation of realistic target date.
      - New tasks identified and matched with realistic target dates.
  - A sample test in respect of the Performance Management Framework showed that a statement to the effect that the area has been subject to "internal verification" was far too wide and misleading. The statement should be more specific as to which audits have taken place in the areas concerned.
- 1.12 It is understood that the annual report and Assurance Statement for 2005/6 will be subject to a further internal audit.

# **District Auditor**

- 1.13 The District Auditor has expressed support for the Authority's Corporate Governance Framework and stated that the Annual Report informs and complements the District Auditor's programme of work for the Authority.
- 1.14 The Audit Commission has published a view that "Corporate Governance is the framework of accountability to users, stakeholders and the wider community, within which organisations take decisions, and lead and control their functions, to achieve their objectives. The quality of Corporate Governance arrangements is a key determinant of the quality of services provided by organisations".
- 1.15 The annual review and Assurance Statements produced will be scrutinised as part of the Comprehensive Performance Assessment process.
- 1.16 The review ought to be considered in the context of the District Auditor's letter for 2004/5: key messages included a statement that governance arrangements are generally satisfactory.

## Outcomes of the review for 2005/6

- 1.17 This has been the fourth annual review, the first being for 2002/3. The outcome is summarised in **Appendix 1**. For each key policy / procedure the lead officer has been required to provide a position statement as at March, 2006:
  - \* potential key risks
  - \* areas assured
  - \* adequacy of processes
- 1.18 This is compared to the position reported to Cabinet on the 26<sup>th</sup> September, 2005.
- 1.19 The lead officer has also been asked to show an action as at March, 2006 including action taken and areas assured since March, 2005.

## Summary

1.20 Wherever possible lead officers have provided assurances that procedures work properly in practice. Where they cannot give a full assurance an action plan has been produced with the aim of enabling assurance to be given within a reasonable timescale.

For example, in respect of Contract Procedure Rules compliance can be assured in respect of contracts handled by Legal Services but assurance cannot be given at this stage in respect of contracts handled and managed within departments. New Contract Procedure Rules were introduced in February, 2006 and assurances are now being sought from Service Departments, to be returned by May 1<sup>st</sup>. This will be followed by an audit which has been arranged for the third quarter of 2006.

In respect of a number of key policies / procedures assurances provided by the relevant lead officer have been supported by assurances received from Service Departments.

It can be seen from the position statement shown as **Appendix 1** that there are no identified risks for the Authority for failing to comply with its absolute standards but the review has, as in previous years, produced an action plan as a basis for further development and sustained improvement.

# **Complaints to the Ombudsman**

- 1.21 A Monitoring Officer issue which is not specifically identified in the Corporate Governance Framework is the position in respect of Local Government Ombudsman complaints.
- 1.22 A summary of Local Government Ombudsman complaints received from 1<sup>st</sup> April 2005 to 31st March 2006 is attached as **Appendix 2** including a comparison with the previous two years 2003/4 and 2004/5.
- 1.23 The number of complaints where maladministration has been found has decreased from 4 in 2004/5 to 0 in 2005/6. **Appendix 3** is a comparison table of family authorities for the years 2003/4, 2004/5 and 2005/6 (to be completed).
