This objection relates to the following licensing objective(s):	
Prevention of crime and disorder	No
Public Safety	No
Prevention of public nuisance	Yes
Protection of children from harm	No

Representation

I wish to make representation in connection with this application for a temporary event notice (TEN) for an extension to a licensable activity as I consider this proposal will be detrimental to the licensing objective of public nuisance.

REASONS

The applicant has applied for a Temporary Event Notice to extend the opening of the premises for the sale of late night refreshment from 16:00 hours until 03:00 hours for 6 consecutive days (24th May 2018 till 30th May 2018).

Due to the position of the premises, noise from St Stephen's Café has the potential to cause noise nuisance to nearby residential properties in Bartholomew Street and St Stephens Road. The likelihood of a nuisance being caused is even greater in after midnight as the background noise in the area drops significantly.

The applicant indicates that the intention for the Temporary Event Notice is for the serving of food during month of Ramadan.

I am concerned that noise from street activities is very difficult to control and noise from customers using the premises will affect residential properties close by especially during earlier hours of the morning.

Noise from customer vehicles, customers arriving, leaving and using the outside of the premises until 03:00 hours daily (especially during the weekdays) will affect numerous residential properties near to and around the premises therefore, there is an increased likelihood of sleep disruption and complaint.

As it stands, I will recommend refusal.
