

Leicester
City Council

SECOND DESPATCH

MEETING OF THE HOUSING SCRUTINY COMMISSION

MONDAY 4 NOVEMBER 2019

AGENDA ITEM 5

QUESTIONS

From: Ms Zina Zelter

1. What is it that tenants do that make passivhaus homes not work well? The response referred to this more than once at the last meeting, the implication being that it was a reason not to build passivhaus, and it would be helpful to know details.
2. If council tenants want better insulation/energy efficiency measures on their homes can they request and would they get them? Specifically external wall insulation.
3. When doing voids work are homes given extra insulation/energy efficiency measures? If not, could they be? Again, specifically external insulation.

The Chair has used his discretion to consider these Questions, which were received following publication of the agenda.

Officer contact:

Angie Smith (Democratic Support Officer):
