**33. PENNBURY ECO TOWN**

Discussion took place on the proposed Pennbury Eco Town Development

The Chair stated that there was a number of issues on the newly proposed Pennbury Eco Town. He commented that the Co-operative Group had stated that they were not prepared to attend any more meetings however would be willing to meet the Members in a one to one situation.

Kevin Feltham, CASCET (Campaign Against Stoughton Co-Op Eco Town) was present at the meeting. He provided some background information about the group. The group had formed just over a year ago when the proposals about the Eco Town had been announced. He added that he and his co-ward Councillor had joined with Parish Councils to form the group. The group had since been joined by a number of experts and professionals. He commented that the Co-op had not attended an event concerning discussion on the proposed Eco Town since October 2008.

Kevin commented on the proposal for the express bus service. He commented that in the Eco Town there would be 15,000 houses and 60,000 people. The Co-op had predicted a 60% retainment rate where people would stay and work in the Eco Town. He commented that nowhere in the country had this sort of retainment rate and it would then mean that 40% of residents in the proposed town would be commuting. There would be increased traffic on London Road. Kevin commented that there would be no space for a corresponding bus lane going out of the city and that the County Council had said it would be unworkable without transport improvements.

A Member commented that if people would be kept within Pennbury then everyone would require servicing such as food. He stated that Knighton and Stoneygate would become full of traffic going in and out of the Eco Town. He stated that Derbyshire, Nottinghamshire and North West Leicestershire had received funding to develop housing. North West Leicestershire was an ideal location to place houses as East Midlands airport had grown and the area was also served by the new railway station, East Midlands parkway and a considerable amount of people worked in East Midlands Airport.

A resident queried when the government make the decision. Kevin commented that the current planning policy statement was up for comment. There were currently 11 proposed locations on the list across the country for Eco Towns, which was reduced from the 15 there had been last year. He added that if the relevant Council, which was Harborough District Council, rejected the proposal then it would then go to the Secretary of State for decision.

A resident queried whether the tram proposal had been dropped. The Chair commented that the proposal was unbalanced as it would cost £300 million and only service 15% of traffic. He stated that Co-Op would not be funding the proposal and he could not see where funding for the scheme could be obtained. He also commented that it would have to be identified how to get the traffic in and out of Pennbury.

A resident stated that they wanted to use public transportation, however, there was no incentive to do so. The Chair commented that a substantive public transportation system was needed to convince people not to use their cars.

A vote was taken and the majority of the people attending were against the Pennbury Eco Town proposal. There was no one in favour of the proposal.

#### **34. ANY OTHER BUSINESS**

A member of the public thanked the Member Support Team for their assistance.

Concern was raised about the speeding traffic on Shanklin Drive as there were two nursery schools on that road. A member of the public suggested that speed bumps or a series of mini roundabouts could be placed on the road to combat the problem. The Chair commented that there was an electronic sign on the road that monitored speeding, however, it underestimated the speed of the vehicles. A member of the public queried why the sign was not working properly. The Chair commented that the sign had been recalibrated a number of times and he would ask the officers to calibrate it again. He commented that this query would be placed in the action plan and officers would look at the problem. The Chair commented that there had been a proposal to bring a 20mph zone on Overdale Road and that there was a commitment to extend 20mph zone limits across the city.

A resident raised concern that Welford Road had not been gritted during the recent heavy snowfalls. They commented that the road was a hazard, however, people were still allowed to go on it.

A resident queried what was happening with regard to the zebra crossing on Overdale Road. The Chair requested that there be an update on this at the next meeting.
