RESOLVED:

that the minutes of the meeting of the Stoneygate Community Meeting held on 20th September 2011, as previously circulated, be approved as a correct record.

31. ORANGE BAG RECYCLING SCHEME

Sophie Green, BIFFA attended the meeting and reported that the new Orange Bag Recycling Scheme had been operating for 8 weeks. Since the Scheme had started recycling rates had doubled and it was stated that, apart from Christmas Tuesday normal collections would be made, with a double collection on the Tuesday after Christmas.

Statistical information on recycling under the new scheme would be provided in a couple of months although it was clear that the scheme had been well received

across the City. Levels of participation were not yet being monitored but this would take place after all the flats and schools across the City were on board.

It was hoped to tackle the introduction of collections to flats after Christmas as each block of flats would have to be assessed individually for their requirements such as bin size and type.

RESOLVED:

that the information be noted.

32. TRAFFIC ISSUES EVINGTON LANE/KIMBERLEY ROAD AREA

Residents Parking

The Community Meeting were informed that, regarding requests for Residents Parking, if a scheme was felt to be necessary, then these should be referred to the Cabinet Lead, Councillor Palmer. Councillor Palmer would then decide whether to include the scheme into the programme. As soon as the scheme was included in the programme consultations with residents and businesses could start. It was stated that several residents of Kimberley Road had raised the problems of parking on their street, caused partly by residents from South Highfields coming to park their cars, or by commuters using this and other streets to park during the day.

A member of the public suggested that one way forward would be to introduce a Park and Ride for this area of the City, rather than resort to the introduction of Residents Parking Schemes that only succeeded in moving car parking problems around. It was stated that this suggestion would be raised with the Deputy City Mayor, Councillor Rory Palmer.

Speeding Traffic

The Community Meeting was informed that there were issues around speeding traffic travelling down Evington Lane towards the City. Officers responded that no serious accidents had been recorded along this particular stretch of road. The City Council had however undertaken some work recently to improve the signage at the junction of Baden Road and Evington Drive. It was suggested that a review of some of the other road signs in the area be undertaken, in particular Stavely Road. Officers stated that this would be down to resources as works were undertaken on a priority basis that relied on feedback and accident statistics.

A member of the public suggested that consideration be given to make several major routes into/out of the City Red Routes, like in London, where no vehicles were allowed to wait or park at all times. Officers stated that to implement Red Routes would require the granting of Special powers by the Government but it was agreed that this would be raised with the City/Deputy City Mayor.

Officers stated that, in an effort to reduce speeding traffic, portable Speed Identification Display signs were being located at various sites across the City, then being moved after several weeks, these signs had been found to be quite effective. The City Council were also looking at erecting roadside posters highlighting accident statistics as a means of getting the message across.

RESOLVED:

that the information be noted.

33. GRIT BINS

An information sheet setting out the location and purpose of City Council provided Grit Bins was circulated. The Community meeting was informed that the grit was provided for highway use only and residents were urged not to take grit from these bins for domestic purposes.

34. CITY WARDENS

The City Warden attended the meeting and stated that some 6 tonnes of rubbish had been removed at a recent Clear Up day on Devana Road.

Targeted enforcement had been undertaken recently, with Leicestershire Fire and Rescue, on Upper Tichborne Street where some 500 houses had been visited. Work had concentrated on getting wheelie bins off the street and as a result the street was much tidier. The position would be re-assessed in the New Year.

Local businesses were also being targeted to ensure that rubbish was being disposed of correctly.

Early in the New Year a Duty of Care project was to be started on Evington Road in an effort to remove pavement obstructions and make the area safer. It was stated that spitting on pavements was a further problem and it was suggested that should people be caught maximum publicity be given to raise awareness.

A member of the public suggested that, with the success of the Orange Bag Recycling Scheme that residents may wish to downsize their large wheelie bins for the small versions. It was suggested that should this be the case then residents should contact Customer Services at the City Council.

RESOLVED:

that the information be noted.

35. LOCAL POLICING UPDATE

Sgt. Danny Graham attended the meeting and reported the following crime statistics for the Stoneygate area, comparing figures for the periods 1st September to 1st December in 2010 and 2011: -

Total Crimes	<u>2011</u> 245	<u>2010</u> 271
---------------------	----------------------------------	----------------------------------

Assaults	64	68
Burglaries – Houses	22	25
Criminal Damage	24	29
Robberies	14	6
Theft of motor Vehicles	7	11
Theft from Motor Vehicles	26	27
Anti Social Behaviour	14	27
Vulnerable Persons Report	35	13

It was stated that several years ago Vulnerable Persons reports had not been recorded but now they were. The cases could involve elderly persons feeling isolated and reporting youths carrying out ASB, but when investigated the persons making the report could sometimes become a report to Social Services. Some investigations under this category could also lead to quite major investigations e.g. where some older people were being ‘fleeced’ by relatives.

Sgt. Graham stated that there had been an increase in House Break-Ins and Robberies and these had resulted in intelligence visits by officers to high risk and medium risk offenders, on the basis that it sent out the message that the Police were aware of what the offenders were doing and that a watch was being kept on them. Additionally a temporary increased police presence in the area had been established with firearms officers, motorway officers, dog handlers and plain clothes officers to act as a deterrent for offenders. The police and Community Safety Team were investing in target hardening in the area with window locks and timers (for lights) being purchased for distribution to high priority domestic properties, an application for funding will be considered later in the meeting.

Several drugs operations had recently been undertaken in the area with varying degrees of success with several persons arrested, together with some drug growing equipment.

Sgt. Graham reported that, over the past several months, the local policing team had been supporting the local youth club managed by HART. The police had been successful in obtaining some funding to enable some of the young people rock climbing in the New Year.

Work was underway to tackle a couple of problem families living on Myrtle Road, ultimately a positive outcome was expected.

Sgt. Graham outlined the future plans for the local policing unit. Between 13th and 17th December 2011 increased evening patrols had been arranged, together with ‘Look and Execute’ search warrants. The police were looking to find those individuals that had not kept Court appointments. On Friday 8th December local police officers were to help staff and pupils at Medway Community Primary School to demolish an old brick wall at the school.

The Problem Solving Plan (PSP) in place at Upper Tichborne Street was still working well, with Drug dealing having been reduced drastically. In Dirvana Road there were on-going youth related issues that required attention and it was planned to introduce a PSP here as well.

The issue of speeding traffic along Evington Lane was raised. Sgt Graham stated that he was planning a 'speeding operation' utilising cameras on Evington Lane and stated that he was looking to undertake this operation on Friday(pm) and Saturday(am) and would be training officers prior it starting. Lessons learned from this operation would be assessed and a report made to the City Council on assistance that had been identified.

The Community Meeting were informed that from the City Council's perspective very few of the accidents recorded on Evington Lane were attributable to speeding, although the position regarding the majority of the accidents recorded on Ethel Road were attributable to speeding.

It was stated that every school day parents were parking on the 'zig zag' markings outside Evington Valley School and that nothing seemed to be done to prevent this. Sgt. Graham stated that the police were able to move these cars on, although Vinci Parking dealt with parking on double yellow lines, however the police would target this area with available resources, although there was a need to work with the school.

Sgt. Graham was thanked for his report.

RESOLVED:

that the information be noted.

36. COMMUNITY MEETING BUDGET

Craig Brown, Members Support introduced the funding applications that had been received since the last meeting.

that the application of **£1,200** be supported.

iv) **ERNA – (Late Application)**

This late application was **deferred** at the request of the applicant.

37. ANY OTHER BUSINESS

Former Page and Moy building – London Road

A member of the public stated that Sainsbury's had recently submitted an application for drinks sales at these premises. Several concerns were raised around the use of these premises as licensed retail premises as it was positioned right next to a bus stop, and the fact that all deliveries to/from shop would have to take place outside on London Road. It was also not clear whether there was accommodation above the premises but it was a fact that the premises was actually within an existing designated alcohol saturation zone. It was also stated that local traders would be badly affected by a Sainsbury's opening at this location and advice was being sought

from solicitors. HART officers were due to discuss the application the following Monday.

The ward Councillors stated that they were currently looking into the concerns raised and would report back.

38. CLOSE OF MEETING

The Chair declared the meeting closed at 8.53pm.
