

Knighton Community Meeting

**9th Leicester Scout Group, 58
Stoughton Road
On Monday, 18 June 2012
Starting at 6:30 pm**

The meeting will be in two parts

There will be an opportunity to speak
with Councillors and Officers.

6:30pm

**Get involved in your area and
planning for the future. There will be
presentations and discussions on:**

- Health Watch
- Police Update
- City Wardens Update
- Community Meeting Budget

YOUR community. YOUR voice.

Your Ward Councillors are:

**Councillor Ross Grant
Councillor Inderjit Gugnani
Councillor Dr Lynn Moore**

Making Meetings Accessible to All

WHEELCHAIR

Meetings are held in a variety of community venues. We will only hold meetings in venues where there is suitable access for wheelchairs. If you have any concerns about accessing a venue by wheelchair, please contact the Democratic Services Officer on the details provided.

BRAILLE / AUDIO TAPE – CD / TRANSLATION

If you require this agenda or a particular part of it to be translated or provided on audio tape, the Democratic Services Officer can organise this for you (production times will depend on equipment facility availability). In certain cases, subject to the agreement of the local Councillors, translation facilities can be provided at the meeting.

INDUCTION LOOPS – HEARING AT MEETINGS

We provide a loop system at every meeting for people with hearing aids. If you have a hearing aid, please speak to the Democratic Services Officer at the meeting for further assistance if you think you won't be able to hear what's being discussed. There is also a facility which can help people hear better if you don't have a hearing aid but are hard of hearing, again please speak to the Democratic Services Officer about this.

The first part of the agenda covers formal items, which the Councillors need to deal with to ensure that regulations on holding meetings are kept to.

1. ELECTION OF CHAIR

Councillors will elect a Chair for the meeting.

2. APOLOGIES FOR ABSENCE

3. DECLARATIONS OF INTEREST

The first main item on the agenda is Declarations of Interest where Councillors have to say if there is anything on the agenda they have a personal interest in. For example if a meeting was due to discuss a budget application put forward by a community group and one of the Councillors was a member of that group, they would not be able to take part in the decision on that budget application.

Councillors are asked to declare any interest they may have in the business on the agenda, and/or indicate that Section 106 of the Local Government Finance Act 1992 applies to them.

4. MINUTES OF PREVIOUS MEETING

[Appendix A](#)

The minutes of the previous Knighton Community Meeting, held on 19 March 2012, are attached and Members are asked to confirm them as a correct record.

This next part of the agenda covers items where input from you on issues that affect your community is welcomed.

5. HEALTH WATCH

There will be a presentation on the introduction of Health Watch

6. POLICE UPDATE

There will be a policing update for the area.

7. CITY WARDEN UPDATE

The City Warden for the Knighton ward will be present to provide an update on environmental issues in the area.

8. BUDGET

Councillors are reminded that they will need to declare any interest they may have in budget applications, and/or indicate that Section 106 of the Local Government Finance Act 1992 applies to them.

The following budget applications have been received:

Application 1

Applicant: Southfields Community Association

Amount: £500

Proposal: Diamond Jubilee Celebrations

Summary: We are hoping to celebrate the Jubilee with a street party that will be moved indoors should there be bad weather.

We will provide food and drink and entertainment for both adults and children. We will also provide a goody bag to take away to help people remember the day. These bags will also contain advertising products to showcase what the Community Centre and the services within it have to offer the community as a whole.

All individuals that use Southfields Community Centre will be invited to attend, young and old, these individuals come from all the ward within the areas: Eyres Monsell, Aylestone, Freeman and Knighton.

It will be an ideal time to bring the communities together to celebrate the Queens Diamond Jubilee.

Application 2

Applicant: Saffron Support for Elderly People

Amount: £1425.78

Proposal: Luncheon Club Refit

Summary: We are hoping to refurbish the kitchen at Southfields Community Centre. At present the cookers and washing up facilities are very dated and extremely inefficient.

We currently offer a luncheon club five days a week for local elders from Saffron, Eyres Monsell, Aylestone and Knighton. Refurbishing the facilities within the kitchen will assist the workers and volunteers in making the cooking and cleaning more practical and less time consuming.

Application 3

Applicant: Surjit Singh

Amount: £500

Proposal: Fitness Club 50+

Summary: Request for jogging suits for the setting up of a new group for elderly people.

9. ANY OTHER BUSINESS

Help us to make improvements!

Please help us to improve Community Meetings by filling in an **Evaluation sheet** to let us know what you thought of the meeting. Thank you.

Knighton Community Meeting

Your Community, Your Voice

Record of Meeting and Actions

6:30 pm, Monday, 19 March 2012

Held at: Overdale Junior School, Overdale Road

Who was there:

Councillor Ross Grant

Councillor Inderjit Gugnani

Councillor Dr Lynn Moore

151. ELECTION OF CHAIR

Councillor Grant was elected as Chair for the meeting.

152. DECLARATIONS OF INTEREST

There were no declarations of interest.

153. MINUTES OF PREVIOUS MEETING

The minutes of the meeting held on 16 January 2012 were confirmed as a correct record.

154. PRINCE'S TRUST

Lindsey Dunn, a Deputy Team Leader with the Prince's Trust, introduced herself to the meeting.

She explained that the Prince's Trust ran a 12-week personal development programme for young people aged 16 – 25. This was targeted at unemployed young people, ex-offenders, under-achievers and those in, or about to leave, care.

The programme was free to attend and simply aimed to achieve a positive outcome. (For example, a young person could be encouraged to enter higher education, or decide what they wanted to do with their life). A recruitment day was held before each course started, at which potential participants could decide if they felt the course would be of benefit to them.

During the first week of the programme, the young people got to know each other. Activities included basic first aid training and basic food hygiene courses. Certificates were awarded for successful completion of these. Then during week two a structured residential team-building course was undertaken. The young people were expected to do their own cooking and cleaning and to be out of bed at a certain time to meet the instructors. This could be very challenging for the participants, but also enabled them to form strong bonds with each other.

In weeks three and four the participants planned, and undertook fundraising for, a community project. This included finding the resources needed to undertake the project. The community project was then completed during the fifth and sixth weeks of the programme.

Individual work placements were undertaken during weeks seven and eight, with the purpose of encouraging participants to consider what they would like to do in the future. Some participants had found employment through this and others had been given references and built up contacts. To encourage the participants to use their new skills, consideration was given to the next steps each would take during the ninth week of the programme.

A final team challenge was undertaken during the tenth and eleventh weeks, which needed to assist the community in some way. This could be very challenging for

some participants, as they often had not previously mixed with people outside of their peer group.

During the twelfth week, a final team presentation was made, describing the team's experiences during the programme and what each member had achieved during it.

Nominations for young people to attend the programme could be given by contacting the Prince's Trust Team, care of the Leicestershire Fire and Rescue Service. Young people also could refer themselves, or be referred by bodies such as Connexions, the job centre, or the Youth Offending Agency.

There usually were about 16 people on each course, (due to the size of the mini buses used). Some did drop out of the course. It was a voluntary programme, but they were encouraged to stay where possible. However, if a young person registered on a course did not attend at the start of it, investigations were made to ensure that there were no barriers to that person attending. If someone left after starting the programme, efforts were made to stay in touch with that person and encourage them to return.

On behalf of the meeting, the Chair thanked Lindsey Dunn for her presentation.

155. BE CLEAR ON CANCER - CANCER AWARENESS

Teresa Spillsbury, from the Leicestershire Partnership Trust, introduced herself to the meeting.

She explained that:-

- The Trust was expanding some projects to become City-wide, one of which was Cancer Awareness;
- Cancer awareness measure surveys had been undertaken in New Parks, Braunstone Park and Beaumont Leys. People had been interviewed and then were questioned again later and had shown a significant increase in awareness;
- The Trust worked in partnership with other agencies and volunteers. Anyone interested in participating should speak to James Schadla-Hall, Members Support Officer with Leicester City Council, who would pass details on to Teresa Spillsbury;
- GPs did not see many patients with cancer, so it was hoped that this programme could raise their awareness as well;
- The approach taken under the programme would be tailored to each area according to need;
- Two one-month campaigns would be held in the City, one in April and one in November 2012. Each would cover different wards, with Knighton being included in the April campaign. The campaign in November would be focussed on non-English speakers;

- Cancer affected one in three people and it was known that early diagnosis saved lives. People therefore needed to be aware of the signs and symptoms of cancer and of the need to go to a doctor if these continued for three weeks or more. It also was hoped that awareness of cancer screening services could be increased through this project;
- Signs and symptoms of some of the more common cancers included:-
 - Breast cancer: lumps and / or thickening in the breast and / or armpit, nipple changes, skin changes (for example, puckering), changes in the size or shape, pain;
 - Bowel cancer: blood in faeces, loose stools for three weeks or more;
 - Lung cancer: a cough lasting three weeks or more, significant changes in irritation experienced from things such as dust, repeated chest infections; and
- As people could be registered to a doctor's practice, rather than a particular GP, they did not always see the same doctor, so patterns of symptoms could be missed, such as coughing up blood, unexplained persistent breathlessness, or pain in the chest and/ or shoulder.

As well as focussing on the most common cancers, it also was intended to look at prostate cancer over the coming year. It currently was not planned to target skin cancer, but a Vitamin D campaign was planned. This would explain to people how long they needed to be in the sun to obtain the 90% of the required daily dose of Vitamin D that could not be obtained from food.

On behalf of the meeting, the Chair thanked Teresa Spillsbury for her presentation.

156. POLICE UPDATE

PC Dave McCartney, Knighton beat officer from Leicestershire Constabulary, introduced himself to the meeting.

He explained that there had been a spate of thefts of number plates from vehicles. These were then used when driving vehicles away from petrol stations without paying. As a result, Home Office funding had been obtained for kits that contained tamper-proof number plate screws, boxes that looked like car alarms and stickers warning that the vehicle was protected.

The Police would visit people who had had number plates stolen to give them kits, following which the scheme would be rolled out to the community. It was noted that some of the funding would be available before the end of March 2012 and the rest would be received in the 2012/13 financial year.

PC McCartney then gave the following update:-

- A community consultation would be held from 12.00 noon to 2.00 pm on Friday 23 March at Holbrook Hall. At this session, member of the public could meet local Police officers and raise queries. Council officers would be there to fit tamper proof screws to vehicle number plates;
- Over the last three months there had been 5 anti-social behaviour arrests in the Ward. These problems tended to happen in the Tesco / Aberdale Road area. The Police were aware of what was happening and would address any increase in anti-social behaviour as needed;
- There had been 17 burglaries over the area. It was being noted that the number of burglaries across the City was increasing, probably due to the current economic situation;
- Over the last three months there had been 9 burglaries across the area at premises other than dwellings;
- 7 cases of criminal damage had been reported. This could cover a wide range of damage. For example, it could be accidental and could be small or large amounts of damage;
- 4 cars and 12 pushbikes had been stolen;
- There had been 19 thefts from motor vehicles. This included break-ins, as well as number plate thefts; and
- 2 robberies had occurred in Southernhay Road. The culprits had been apprehended.

PC McCartney reminded the meeting that a grant of £300 had been approved to the Police from the Community Meeting Budget towards the purchase of SmartWater to help deter bicycle thefts. The local Joint Action Group also had given £300 for this purpose. The meeting noted that stolen bikes often were stripped and sold for spares. SmartWater could be put everywhere on a bike and a registration code contained in the SmartWater could be seen under ultraviolet light, which meant that parts could be traced. (A registration form was supplied with each pack of SmartWater.)

One session of applying SmartWater to bikes already had been held at Knighton Park and these would be on-going in the Ward. The Fix My Bike shop from Saffron Lane also would be involved in the programme, marking bikes that were bought or repaired at the shop with SmartWater.

In reply to a question, PC McCartney advised that SmartWater could be bought from the company's website (www.smartwater.com) in various sizes of pack. It was thought that there was not a local stockist, but PC McCartney undertook to look in to this.

The following points were then made during discussion:-

- Approximately 2,600 bicycles had been stolen across the City over the last year. Such thefts always should be reported to the Police, irrespective of the value of the bike stolen;
- Residents had heard that last month animals had been left in the Ward, but the Police had received no reports of this;
- Residents enquired about the level of thefts of lead in the area. It was noted that lead currently had a high value and it was known that it already had been stolen from some roofs in the area; and
- Pink graffiti had reappeared on some street signs and NTL boxes.

157. CITY WARDEN

Nik Krneta, the City Warden for the Knighton Ward, introduced himself to the meeting.

He advised that reports had been received of problems with dog fouling in the Pendlbury Drive area. Dogs had now been seen fouling the area and a £80 Fixed Penalty Notice issued. It was hoped that reports of this would be circulated and other people deterred from allowing their dogs to foul the area. New notices, at eye level, had been put up around the Ward, advising dog walkers of this.

In response to a query, Nik Krneta advised that two weeks were allowed in which to pay a Fixed Penalty Notice. If it was not paid during this time, the person issued with the Notice was taken to court and could be fined, with the Council's costs awarded. All income from this was used for community funding.

It was noted that members of the public could help by reporting incidences of dog fouling, (for example, advising of times, days and places). If they were willing to make a statement, this could be used in court if a Fixed Penalty Notice was not paid. However, people should not put themselves at risk to do this.

The following points were then raised in discussion:-

- Residents had heard that people had been arrested for doing the pink graffiti that had reappeared in the Ward. It was noted that the City Warden service could clean the NTL boxes and that the graffiti by the Wash Brook would be removed by people working on Community Payback;
- A lot of litter was being left by roads. All complaints were acted on, but it could be difficult to find out who owned the land.

AGREED:

That the City Warden be asked to do a letter drop in the area affected by the most recent dog fouling issues, advising people of the consequences of letting their dogs foul the area.

158. BUDGET

a) Spring Fair 2012 – Allendale Road / Francis Street – Stoneygate Shops (Zoe and Nigel Brady) £4,782

Mr Brady explained that traders in the Stoneygate area were now competing against large commercial outlets, such as Highcross shopping centre. The proposed Fair would give a boost to the local shops and other facilities for residents and, if successful, could become an annual event.

Mr Brady confirmed that there was no element of profit in any of the costings provided.

AGREED:

that the application be supported and £4,782 allocated, subject to final approval from the Cabinet lead.

b) Days Outings – Sight Seeing (West Knighton Senior Citizens Group) £600

AGREED:

that the application be supported and £600 allocated, subject to final approval from the Cabinet lead.

c) Tennis 4 All (Carisbrooke Lawn Tennis Club) £3,000

Peter Wilkinson, Manager of Carisbrooke Lawn Tennis Club, explained that the Club wanted to encourage people of all ages and sexes to try tennis. It was recognised that some tennis clubs could be unwelcoming, so wanted to remove perceived barriers by holding at least 4 free introductory tennis sessions, with coaches, in Knighton Park, followed up with similar sessions at the Club.

The introductory sessions would not be sufficient to develop skills to properly enjoy a game of tennis. Coaching sessions therefore would be provided, at which all equipment would be provided. 10 twelve week courses would be offered, at a subsidised rate. There would be a maximum of 5 people per group.

The Club hoped that these sessions would enable people to get to a level where they could play a game of tennis with someone and to find a partner of the same level. Concerns that tennis was an expensive sport were recognised, but it was felt that, in the long run, it did not need to be. For example, a good racquet would last for many years.

A flyer would be designed to advertise the project. This would be delivered to every house in the Ward and put up in appropriate locations.

Through this scheme, the Club hoped to increase interest in sport of all kinds. There were a number of tennis clubs in the Ward, so this scheme would not just benefit the Carisbrooke Club.

AGREED:

that the application be supported and £3,000 allocated, subject to final approval from the Cabinet lead.

d) Event Infrastructure for Knighton Park Community Fun Day (Parks Services Area 4) £1,115

Infrastructure costs for the Community Fun Day included first aid cover by the St Johns Ambulance service, toilets and costs associated with the services provided by Hospital Radio Fox. These were all essential for the smooth and safe running of the event, which regularly attracted over 5,000 people.

It was noted that funding towards infrastructure costs was awarded from the Ward Community Budget every year, but the amount given varied, depending on what was needed.

AGREED:

that the application be supported and £1,115 allocated, subject to final approval from the Cabinet lead.

e) Small Goal Posts on Chiltern Green, Shrub and Bulb Planting (Reece Harris/Sam Allen) £4,000

James Schadla-Hall, Members Services Officer, reminded the meeting that an application for funding for the placing of small goal posts on Chiltern Green, plus shrub and bulb planting, previously had been approved in principle, subject to a positive formal consultation with residents in the surrounding areas, (minute 138, "Budget", 17 October 2011 referred).

This consultation had been carried out, but some local residents had raised objections to the proposal. In addition, the Friends of Knighton Park had pointed out that the green space at Aylestone recreation ground had been turned over to football and, on foot, Chiltern Green was less than one mile from both Aylestone Recreation ground and the facilities in Knighton Park.

The Friends of Knighton Park also advised that they had undertaken a public consultation at the community fun day in 2010 on whether a basketball hoop should be erected. 84 people of a variety of ages completed that questionnaire and 83 of those said they would like a basketball hoop in Knighton Park. 83% of all respondents said they personally would use the hoop and, of those who would not use it themselves, most felt that family members would use it.

AGREED:

- 1) that, in view of the results of the public consultation carried out, no funding be provided for small goal posts on Chiltern Green, or associated shrub and bulb planting; and
- 2) that, once all other applications for funding from the 2011/12 Ward budget have been considered, any remaining funding be used for the installation of a basketball hoop in Knighton Park.

159. ANY OTHER BUSINESS

a) Lord Lieutenant's Jubilee Award Scheme

It was noted that the Lord Lieutenant of Leicestershire was operating an Award Scheme for the Diamond Jubilee year to recognise work done for the community by community groups. Details of this could be obtained from James Schadla-Hall, Members Services officer with Leicester City Council.

b) Parking in the Francis Street / Allandale Road Area

The Chair reported that a meeting had been held with officers on 15 March 2012 about parking issues in the Francis Street / Allandale Road area. They had recognised the problems being experienced with commuters parking there now that parking restrictions had been removed and the possibility of looking at ways of creating additional parking had been discussed.

Officers also had been made aware of work that was on-going to try and have the Post Office re-instated there, as the current parking issues could impact on this.

c) Re-Instatement of Post Office

Councillor Gugnani reported that he had spoken to the City Mayor about the possibility of re-instating the Post Office and the City Mayor had been very willing to support the proposal.

It was noted that a 1,100 signature petition would be handed in for presentation at the Council meeting on 29 March 2012.

d) Review of Community Centres

Councillor Dr Moore explained that the City Council was considering reshaping community centres in the City in order to make savings and ensure that they were providing best value.

At present, Knighton did not have a community centre. Facilities were available for community use, but were spread out around the Ward. Councillor Dr Moore therefore asked that people let her know where they used facilities and if they felt that it would be useful to have a central facility.

Those present at the meeting suggested that the answer to these questions could change depending on which part of the Ward was being asked. For example, some people would use facilities at Clarendon Park library, which was out of the Ward.

Residents were invited to contact Councillor Dr Moore outside of the meeting if they wished to discuss this further.

e) Parking Outside Overdale School

Councillor Dr Moore reported that a meeting had been held with the Head teacher of Overdale School to discuss parking problems outside the school. As a result, the school would be investigating establishing a Walking Bus and the use of the car park at Knighton Bowls Club.

Ward Members also were considering whether signage could be put up outside the school, (possibly on a temporary basis), to deter speeding and parking in the vicinity of the school.

Residents reported that the flashing (warning) lights near the school had not been working for several months, even though this had been reported several times. The Ward Members undertook to find out why they had not been repaired.

160. CLOSE OF MEETING

The meeting closed at 7.57 pm
