Adult Participation in Sport – Leicester City Council Sports Services

Report of the Director of Culture and Neighbourhood Services

1. Introduction

- 1.1** This paper seeks to provide some key information to Members of the Heritage, Leisure and Sport Scrutiny Commission who are considering the issue of adult participation levels in sports in Leicester.
- 1.2** The paper sets out a wide range of data and information particularly in the areas of :-
- Free swimming initiatives
 - Satisfaction levels (opinion meter survey)
 - Football development strategy
 - Sports centre usage figures
 - Sports centre membership usage
 - Leicester Sports Partnership Trust
- 1.3** The paper is supported by the full data which can be provided to Members if required.

2. Free swimming initiatives

Free swimming was first introduced for city residents aged 16 and under and it has proved successful. It was initially funded by Central Government but following a decision to withdraw funding in 2010 the City Council has maintained the offer across all of the public swimming pools.

In addition to the school holiday swim offer, a further 4 pools across the city offer free swim sessions at weekends during term times. This offer is funded by Public Health, NHS Leicester City.

An analysis of both schemes can be shown as follows:

All Sites – School Holidays

Easter 2011 – No free swimming in 2011

Easter 2012 – 4838 free swims

Summer 2011 – 28,706 (6 week period – average 4784 per week)

Summer 2012 – 15841 (4 week period – average 3,960 per week)

October half term 2011 – 2221

October half term 2012 – 1517

At Braunstone, New Parks, Cossington St and Spence Street during term time

April – October 2011 – 5147

October – April 2012 – 4655

April – October 2012 – 8056

October – April 2013 – Not available yet

It is interesting to note that the popularity of free swimming for young people has reduced in this current financial year whilst the school term offer has risen in popularity.

Officers are currently considering ways of encouraging children to learn the important skill of swimming as many young people are unable to swim.

A full breakdown of pools free swim figures is attached in appendix 1.

3. Satisfaction levels (Leisure Centres – Opinion meter survey)

A survey of customers is carried out bi-annually by CRT viewpoint seeking customer's views on a range of issues as well as satisfaction levels.

Over 1000 responses were received from customers and the headline indicates suggest the following:

Of the sample size taken -:

- 35% were young people aged under 18
- 16% classified themselves as disabled
- 50% classed themselves as white or white British
- 42% classed themselves as having an ethnic background
- 36% classed themselves as employed
- 70% of these surveyed live in the City

Levels of satisfaction with the Leicester Centre varied from 58% at Cossington Street to 85% at Leicester Leys.

When asked what could be done better, a variety of issues were received. In priority order these were:

- Lower prices
- Cleaner facilities
- Better equipment
- Better staff
- Better programmes
- Other

There are some clear messages for Sports Services particularly in terms of improving cleaning standards which have been included in service plans for each centre.

Lower prices are also clearly an issue. In the latest survey 50% raised this as an issue compared to 28% in the previous survey.

A further breakdown of individual sites and issues received is contained in appendix 2.

4. Football Development Strategy

The football development strategy is an £11 million project delivering improvement to 11 football sites across the City and it has been funded predominantly by the City Council, Football Foundation and the NHS.

The project is due to be finally completed in March 2013 with the completion of the Ayestone Playing Fields and former Riverside College sites.

The main aim of the project is to encourage more people and more teams to be playing football in the City. A detailed breakdown of the performance indicators which are measured for the overall project is attached as appendix 3.

5. Sports Centre usage figures

All of the Sports and Leisure facility usage figures are detailed in appendix 4.

The usage figures are detailed for the last 3 years and show over 2 million visits per year. Currently Braunstone is our most popular centre followed by Aylestone and Leicester Leys. This reflects the wide variety of activities available at these sites in comparison to smaller centres.

The figure for St Margaret's Pasture should be treated with caution as we collect figures differently from that site following its development as a 5-A-Side centre.

6. Sport Centre Membership

An analysis of Card members is attached at appendix 5.

7. Leicester Sports Partnership Trust (LSPT)

The LSPT seeks to drive improvement in two key areas using sport as a mechanism to achieve this. The two areas are raising standards in young people and improving wellbeing and health.

The LSPT organisation is made up of a Board of Trustees, a steering group and 14 sports specific development groups. The organisation is detailed in appendix 6.

The LSPT Board consists of the following people representing their respective organisations. The Board provides leadership on the strategic direction of Sport in the City.

Chair – Rory Underwood
Councillor Piara Singh Clair –LCC
Liz Blyth – LCC
Rachel Dickinson – LCC
Bill Morris – EIP
Simon Cole – Leicestershire Police
Shahid Sheik – Business Sector
Mike Kapur – Business Sector

Deb Watson – LCC
Mike Siddell – Leicestershire Country Cricket Club
Kevin Routledge – Leicester Riders Basketball Club
David Clayton – Leicester Tigers Rugby Club
Susan Whelan – Leicester City Football Club

The LSPT steering group consists of the following people carrying out action on the Boards behalf.

Chair - Paul Edwards – LCC
Victoria Ball – LCC
Sally Davis – Achievement Project
Stephanie Dunkley – NHS
Joanne Atkinson - NHS
Dan Mitchinson – Loughborough University
Gaynor Nash – Loughborough University
Shimul Haider – Loughborough University
Mark Botterill – Ellesmere College
Sandra Pugh – Ellesmere College
Sarah Lansdowne – Ellesmere College
Joanne McCarthy – VAL
Wayne Allsopp – New College Leicester
Harnek Kandola – Leicester City Football in the Community
Russell Levenston – Leicester Riders Basketball Club
Ged McDougall – Leicestershire & Rutland Cricket Club

There are then 14 sports specific delivery groups which work to develop the intents of local sports clubs across the City.

A delivery plan detailing each area action is attached for consideration at appendix 7.

8. Conclusion

This paper has set out to respond to the Commission's request for background information relation to sports participation in Leicester.

Appendix 2

Sports Services User Survey

Sports Services carries out surveys approximately every 18 months. The scope from this survey includes:

- Braunstone Leisure Centre
- Aylestone Leisure Centre
- New Parks Leisure Centre
- Leicester Leys Leisure Centre
- Cossington Street Sport Centre
- Spence Street Sports Centre
- Evington Leisure Centre

The aim of the survey is to assess satisfaction levels across the service from our customers. The method of data collection is by kiosk placed in the centres with easy to use instructions to “tell us what you think”.

Technology

- The methodologies tested:
 - Kiosk – placed in 7 sports centre.
- Data uploaded at end of Pilot.
- Not aware of any technical issues.
- All technology worked throughout pilot.

Response rates by location

Response varied from site to site with Aylestone Leisure Centre Customers being most active and Evington Leisure Centre having the smallest take up.

Demographics

Age

Gender

Out of the people surveyed it is clear to see 35% were under the age of 18 with a gender split of 52% male 48% female as shown.

Demographics

As the diagram shows overall 16% of those who responded to the survey classed themselves as having a disability and 50% classing themselves as white or white British with another 42% having an ethnic background. The employment status of our customers surveyed show 36% are employed with the 2nd highest users as students. It is also clear to see 70% of those surveyed came from the city.

Were you satisfied with your visit?

Of those respondents Leicester Leys Leisure Centre had highest satisfaction rate with 85% and this could be due to the fact the centre has a leisure pool and the only one of its kind in the city. The lowest satisfaction rate is at Cossington Street Sports Centre at 58%.

What could we do better? All locations (select all that apply)

As you can see from the chart 50% of all people surveyed said that price is a major issue with the pricing set too high. This figure represents an overall increase from the last survey carried out in January 2011. When the same question was asked only 28% said the price was an issue. This is a significant issue for Sport Services as it shows further increases in fees could have a detrimental impact on the service.

What could we do better?

Breakdown by location (select all that apply)

A further breakdown site by site shows Spence Street Sport Centre has the most people surveyed who would like to see lower prices. Overall 62% were unhappy. Cossington Street Sport Centre and Aylestone Leisure Centre both had over 50% of those surveyed who also said price was an issue.

Rate the experience overall

(Those who said Very poor)

- 13% of people thought the experience was 'Very poor'
- 42% of those who rated the experience as 'Very poor' visited the gym 5 days or more.
- 1 in 2 respondents thought prices should be lower.
- Only 21% of respondents would return after a bad experience.

- 3) Create a thriving sustainable community club, coach and volunteer infrastructure**
- 4) Develop sustainable facilities to meet the future needs of the people of Leicester**
- 5) Use the London 2012 Olympic and Paralympic Games to inspire the people of**
- 6) Leicester to take part in sport and physical activity**

Foreword

As chairman, I am delighted to introduce the Sports Partnership Trust and this two-year action plan which will drive it forward. The trust was formed as a partnership to develop high quality inclusive opportunities for the people of Leicester, enabling them to achieve their potential through sport and physical activity. Its guiding principles are to improve health and wellbeing and to raise educational attainment.

The board is made up of thirteen trustees with representation from Leicester's four professional sports clubs, Leicester City Council, the Primary Care Trust, and the commercial sector. The trust will also be engaging with partners in the community and education sectors. Its status as a charity enables it to access additional external funding to deliver sport and physical activity initiatives as outlined in its action plan.

The aim of the action plan is to create a lasting legacy from the London 2012 Olympic and Paralympic Games. In these difficult economic times, partners have looked to new ways of working together and sharing resources in order to deliver initiatives with far greater success than any one organisation working alone. Our goal is to embed sustainable sporting and physical activity opportunities in the city to benefit future generations. Delivered in greater partnership than ever before, these initiatives will make Leicester the most active city in the country.

I would like to take this opportunity to thank all those partners that have helped us to produce this action plan and I look forward to working with them to deliver on the many initiatives within it for the benefit of the people of Leicester.

Paul Hudson

- 6) Leicester to take part in sport and physical activity**

Foreword

As chairman, I am delighted to introduce the Sports Partnership Trust and this two-year action plan which will drive it forward. The trust was formed as a partnership to develop high quality inclusive opportunities for the people of Leicester, enabling them to achieve their potential through sport and physical activity. Its guiding principles are to improve health and wellbeing and to raise educational attainment.

The board is made up of thirteen trustees with representation from Leicester's four professional sports clubs, Leicester City Council, the Primary Care Trust, and the commercial sector. The trust will also be engaging with partners in the community and education sectors. Its status as a charity enables it to access additional external funding to deliver sport and physical activity initiatives as outlined in its action plan.

The aim of the action plan is to create a lasting legacy from the London 2012 Olympic and Paralympic Games. In these difficult economic times, partners have looked to new ways of working together and sharing resources in order to deliver initiatives with far greater success than any one organisation working alone. Our goal is to embed sustainable sporting and physical activity opportunities in the city to benefit future generations. Delivered in greater partnership than ever before, these initiatives will make Leicester the most active city in the country.

I would like to take this opportunity to thank all those partners that have helped us to produce this action plan and I look forward to working with them to deliver on the many initiatives within it for the benefit of the people of Leicester.
