6. QUESTIONS, REPRESENTATIONS, STATEMENTS OF CASE

The Monitoring Officer to report on the receipt of any questions, representations and statements of case submitted in accordance with the Council's procedures.

The following question has been submitted from Mr Robert Ball:

Moving the Intensive Care Unit from the Leicester General Hospital to the LRI

University Hospital Leicester (UHL) presented a case to the Scrutiny Commission stating that the intensive care unit (ICU) needed to be closed down at the Leicester General Hospital and moved to the Leicester Royal Infirmary and Glenfield Hospital. Because this was considered an urgent matter with closure required within months for reasons of patient safety, the scrutiny commission at the time approved the move without public consultation.

Clearly, however, closure was not urgent nor required in 2015 as the ICU at the General Hospital continues in place. As its governing body's approval of the full business case indicates (Ref 1), UHL appear to be assuming they can proceed three years later (commencement of construction by October 2018) with no public consultation, despite the fact that this represents a major change in service delivery.

This is a question for the Health and Wellbeing Scrutiny Commission: what action will the scrutiny commission be taking to ensure this does not occur?

The effective closure of ICU at LGH will require the removal of other services, making the long-promised STP consultation on the three to two strategy virtually a meaningless exercise.

The following question has been received from Mr Stephen Score:

University hospitals of Leicester want to close the General as an acute hospital and concentrate their services onto two sites only (the Royal Infirmary and the Glenfield). However, there has been no public consultation on this. Despite that, they are planning to move ITU out of the General, which will make it very difficult to keep other services there. Effectively they are moving from three to two hospitals by stealth and without public consultation. Will the Scrutiny Commission ensure consultation happens?

The following question has been received from Mr Peter Worrall:

*It's my understanding the Scrutiny Committee approved the closure of intensive care at the General Hospital in 2015 without formal public consultation because it was informed by University Hospitals of Leicester that the matter was urgent and needed to be dealt with swiftly for patient safety reasons. As ITU still functions at the General can we assume that formal consultation will now be required? And furthermore will the Scrutiny Committee make clear whether it **wishes** to see proper consultation now take place?*
