

Area Committee proposal assessment

Applicant...Aylestone Park Residents' Group

Total cost : £102

Objectives /local benefits

Provide funding for a year of meetings for the newly-established residents' organisation.

Comment

Members may consider that while this is a comparatively minor funding request they might wish to consider that it is important that the group is able to operate independently and that it can demonstrate a value to the community that it represents.

Fund-raising events can be an important part of the process of establishing co-operation and interaction within the community, and members may feel that the organisation should go down this route.

Members may also feel they can make representations on behalf of the group to get a reduction in the cost of hiring of the hall. In this context they may not wish to agree to the application at this time. Your instructions are requested.
