

APPENDIX 3

NON-STRATEGIC SITES PROPOSED FOR ALLOCATION IN THE DRAFT LEICESTER LOCAL PLAN (2022)

**THIS DOCUMENT IS STILL BEING UPDATED, TAKING INTO ACCOUNT
REVISED DENSITIES ETC.**

Introduction

Paragraph 23 of the NPPF states that broad locations for development should be indicated on a key diagram and that land use designations and allocations should be identified on a policies map.

A growth diagram was published with the draft Local Plan consultation in 2020. The growth diagram portrayed the extent of the proposed new Central Development Area (CDA) and showed indicatively the locations of strategic components of the draft Local Plan. A policies map will be published with the Local Plan for the next round of consultation, which will form part of the Local Plan when adopted.

As part of the draft Local Plan, the Council showed proposed land use designation changes to the adopted Local Plan proposals map in the document entitled *Atlas of proposed changes to the Policies Map*. This document sets out the proposed non-strategic site allocations; an accompanying document sets out the proposed strategic site allocations. Both of these documents will be updated prior to the next consultation and will be supported by the Policies Map.

The proposed CDA has the potential to accommodate around 6,200 new homes and 3.92 hectares of land for office development. This is a key component of the draft Local Plan's spatial strategy for the City's growth over the plan period. The 53 non-strategic site allocations (48 proposed for housing, 2 - employment, 1 - leisure and tourism, 2 – schools) proposed in the Local Plan and set out in this document collectively make provision for 1,232 new homes over the plan period and around 4.8 hectares of land for employment uses.

Site Selection and Information

The proposed non-strategic site allocations set out in this document were selected by Council officers having regard to:

- Leicester's Sites Methodology document;
- Sustainability Appraisal; and
- 'Level 2' Strategic Flood Risk Assessment (and 2022 update).

A fuller explanation of the site selection process is provided in the Sites Methodology document referred-to above.

For each site in this document there is a map extract, on an Ordnance Survey base, identifying the subject site in the centre of the map, and showing the extent of the proposed Local Plan allocation either in pink (denoting that the whole of the site is proposed for development¹) or in yellow (denoting that only part of the site is proposed

¹ Except for sites: 335 and 961 where a development area has been defined and the remainder is proposed as enhanced playing fields; and 559 where a development area has been defined and the

for development)². For those sites shown in yellow as partial development sites, the part of the site that would be developed has not been determined³ and the Council would welcome views on this as part of the consultation.

Below each map there is a table of explanatory information, as follows:

Site No:	the site's unique reference number
Site Address:	the name/address by which the site is known
Ward/Area:	the Council ward name (and OSSR ⁴ area)
Site Area (ha):	the site area, in hectares
Category:	either brownfield or greenfield ⁵
Proposed Uses:	the development uses proposed by the allocation
Capacity (Residential):	the number of dwellings proposed by the allocation
Capacity (Employment):	the area in hectares and floorspace in square metres for employment uses
Capacity (Other):	the area in hectares or floorspace in square metres for any other uses
Suitability Summary:	a summary of Council officers findings of the site's suitability and the site specific issues likely to need particular attention when the site is brought forward for development
Notes:	whether the site is wholly or only partially suitable for development
Ownership:	either City Council or privately owned
Delivery Timeframe:	when the site is likely to be developed (years from 2020)
Sustainability Typology:	the site's score from the Sustainability Appraisal (Red, Amber or Clear)
Initial RAG Score:	the number of <u>R</u> eds, <u>A</u> mbers and <u>G</u> reens (RAG) scored as a result of initial assessment, following the Sites Methodology, by Council officers

Next Steps and Timeframes

remainder is safeguarded for the route of the Eastern District Distributor Road (EDDR) (the route of the EDDR is shown on the 2006 Local Plan proposals map).

² In this context, 'development' includes the provision (where relevant) of roads, car parking, amenity areas, landscaping etc., not just buildings.

³ Except for site 960, parts of which is subject to environmental/planning constraints.

⁴ The Open Spaces, Sports and Recreation (OSSR) Study 2017. The OSSR identifies open space planning areas within the City as: North-East, South-East, South, West, North-West, and Inner.

⁵ Brownfield means land which is previously developed, greenfield means land which is not previously developed.

The sites contained within this document are within the final version of the Local Plan. To view the draft Local Plan and to make your views known about any of the proposed site allocations please click here:

The Council has reviewed all comments received as part of the 2020 consultation and have taken these into consideration when deciding the final list of sites that it wishes to be included in the Local Plan for submission for Examination in Public. The upcoming consultation will give the opportunity to review the soundness of the Local Plan and provide any final comments. The Council have engaged with other interested parties including site owners/promoters, neighbouring local authorities and the County Council, utilities providers and others. New sites submitted during the previous consultation have been considered for inclusion in the final list for the Local Plan.

Proposed Uses:	Education
Capacity (Residential):	N/A
Capacity (Employment):	N/A
Capacity (Other):	Early Years, Primary & Secondary School (52 early years, 420 primary pupils and 900 secondary students)
Suitability Summary:	Greenfield site. Planning permission already granted on part of site for a two storey primary school and sports facilities (20171236). Development on remainder would involve loss of open space in (majority) ward and OSSR area with deficiency, and in (part) ward and OSSR area with sufficiency. However, loss of open space outweighed by public benefit of school place provision; Stokes Wood Park to west of Forest Way would be retained. Subject to protection of LWS, wider site is suitable for expansion to include a secondary school. In addition to usual planning requirements development will need to address: flood management infrastructure; easement of main river; ecology; archaeology; heritage; air quality; retention of adjacent cycle route; and satisfactory access/highway mitigation.
Notes:	Other than LWS part, whole site suitable for development.
