Application No. (If known):

Please tick one or more of the licensing objectives that your representation relates to:
 Prevention of Public Nuisance

Please summarise your concerns about this application: They are proposing to have live music outdoors which would be intolerable for us who live in the flats above. They are also planning to have indoor live music 5 days a week. I'm autistic and can deal with the noise on a

friday and Saturday night because its expected and can be planned around, but noise all through the week would make it unlivable. The Athena, over the road, usually only has events and music on a Friday and Saturday night. This is much more reasonable than having music 5 days a week under residential flats. Also are they planning on having any soundproofing installed in the basement where the music will be? I don't know whether this is a legal requirement for music venues but I'm just bringing it up in case it is.

Please give further details of WHY you believe this application will have an adverse effect on the licensing objectives : We can hear the music from The Athena in our flats on a friday and Saturday night and they're in another building. So we'd definitely be disturbed by music from below us in the same building.

Are there any changes that could be made to the application that would reduce or remove your concerns?: Yes

Please explain what changes you think would help:Limiting music to a Friday and Saturday night and only occasional outdoor music with notice given in advance to residents of the Queens Building of when these would be.

If appropriate, would you be willing to take part in mediation to try to reach an agreed outcome?: Yes
