To whom it may concern,

I wish to object to the 'variation to a premises license' made by 3 Little Birds Restaurant, 40 Hinckley Road, Leicester, LE3 0RB. The premises is already a persistent source of noise both during the day and late at night. I have made several complaints to the noise pollution team about the business. Currently, the 'restaurant' has a live DJ most weekends including in the evenings. Loud amplified noise regularly carries on long past their stated opening hours, the worst being one occasion when it was still disturbing the residents at 4am. There is frequent screaming and shouting from customers on the street and when the bar door is kept open the noise is on a par with a nightclub. This is a residential area.

I do not see why I should surrender the idea of ever having a relaxing weekend, Friday or Saturday night while this business is open. The level of noise disturbs my sleep. It prevents me from being able to hear my TV without turning it up considerably beyond its normal settings. It is unpleasant, disruptive and depressing to have no means of escaping the noise. Hours and hours of it, and there is no room in my home where I cannot hear it. I strongly feel that if the business currently operates outside of its stated hours, then an extension to these will inevitably lead to further disruption for residents.

I hope I have adequately and appropriately supplied useful information. Unfortunately, I did not see the application notice until today and the deadline is tomorrow. The notice was displayed, high up, in the window of the premises but was printed on bright blue paper, I was not aware it was a council notice of application. I thought it was a list of events at the bar until today when I happened to be on the same side of the street as the

bar. I could not find a guide on the council's website to help me object to the application. I think it unlikely that many residents have seen this notice or are aware what it is for. Certainly, the elderly neighbour in a mobility scooter will not have been able to view it.

Yours sincerely,
