#### NOTES FOR APPLICANT

1. There are statutory exemptions and transitional arrangements which mean that the biodiversity gain condition does not always apply. Based on the information available, this permission is considered to be one which will not require the approval of a biodiversity gain plan before development is begun because the following statutory exemption/transitional arrangement is considered to apply:  
Development below the de minimis threshold, meaning development which:
  - i) does not impact an onsite priority habitat (a habitat specified in a list published under section 41 of the Natural Environment and Rural Communities Act 2006); and
  - ii) impacts less than 25 square metres of onsite habitat that has biodiversity value greater than zero and less than 5 metres in length of onsite linear habitat (as defined in the statutory metric).
2. The City Council, as local planning authority has acted positively and proactively in determining this application by assessing the proposal against all material planning considerations, including planning policies and representations that may have been received and subsequently determining to grant planning permission with appropriate conditions taking account of those material considerations in accordance with the presumption in favour of sustainable development as set out in the NPPF 2024.

The Director of Planning, Development and Transportation submitted a report providing Member's with an update on the outcomes of appeals received in the 2024/25 municipal year and between 1<sup>st</sup> April 2025 and 28<sup>th</sup> May 2025.
