

Thank you for your email.

I live at 

We have many betting places on the Narborough Rd.

There is a betting shop a few metres from this one proposed .

There is lots of anti social problems, there are congregation of men outside the other bookies, street drinking.

There is a lot of discarded cans and bottles from the drinking outside the bookies.

Morrisons is open 24 hours and there are many massage parlours in the area.

Many of my female friends do not feel comfortable walking on Narborough Rd, especially in the evening.

There are many addiction problems in the area, and vulnerable young people often sleeping on the street right outside Morrisons.

It is a very low income area.

There is many children walking to school on imperial avenue.

Another betting shop would be very detrimental to the local community.

It is also the main road into Leicester from the motorway, it is what people from outside the city see when they first arrive.

Businesses that add to the community need to be encouraged on the Narborough Rd, such as a Chemist and the Istanbul bakery.

I strongly object to another bookies in what is still a residential area.

Kind regards,
