
Executive Decision

Proposed 20mph Zone

Braunstone South

Decision to be taken by:
Assistant City Mayor, Environment and Transport

Decision to be taken on: 16 April 2026

Lead director/officer: Andrew L Smith

Useful information

- Ward(s) affected: Braunstone Park and Rowley Fields Ward
- Report author: Steve Warrington
- Author contact details: 0116 454 2867 / steve.warrington@leicester.gov.uk
- Report version number: 2 (23/03/2026)

1. Summary

- 1.1 The purpose of this report is to seek the Assistant City Mayor's approval to implement a 20mph Speed Limit in the Braunstone South Area.

2. Recommended actions/decision

- 2.1 The Assistant City Mayor for Environment and Transportation is recommended to approve implementation of the proposed 20mph Speed Limit in Braunstone South.
- 2.2 The Assistant City Mayor for Environment and Transportation is recommended to approve advertisement of the 20mph Speed Limit Order required to implement the scheme.
- 2.3 The Assistant City Mayor for Environment and Transportation is recommended to approve advertisement of the traffic calming required to implement the scheme.

3. Scrutiny / stakeholder engagement

- 3.1 The Economic Development, Transport, and Climate Emergency Scrutiny Commission considered the policy regarding implementation of 20mph zones in Leicester. Scrutiny reported their findings in January 2024.

Key points included:

- The bespoke method adopted by the Council was seen as preferable to having a default 20mph speed limit. This approach allowed for consultation, improvements and traffic-calming.
- The commitment of achieving 20mph coverage of 80% of suitable streets was supported but recommended aiming for 100% of appropriate residential streets, and it was suggested that these should include post-completion feedback and the air quality data in these areas should be monitored.
- It should be ensured that schemes were self-enforcing and looked at older 20mph streets to see if the traffic calming measures needed to be modernised.

4. Background and options with supporting evidence

4.1 Background

The Braunstone South scheme forms part of the Council's strategy to reduce collisions and encourage cycling and walking.

4.2 Scheme Proposal

Appendix A shows the proposed 20mph Speed Limit plan.
Appendix B shows the proposed traffic calming on Braunstone Avenue.
Appendix C shows the proposed traffic calming on Gooding Avenue.
Appendix D shows the proposed traffic calming on Hallam Crescent East.

4.3 Consultations

4.3.1 Stage 1 consultations have been carried out with Ward Councillors, the emergency services, and other Statutory consultees. Ward Councillors have not objected to the proposals. The results of this consultation are shown on Appendix E. The Stage 1 process also includes consultation with affected internal stakeholders. No objections were received.

4.3.2 Stage 2 consultations have been carried out with affected residents. 1610 residents were consulted, and 214 (13%) responded.

164 (77%) were in favour of the 20mph Speed Limit reduction and 43 (20%) were against. 7 (3%) were either unsure on the speed reduction or had no opinion.

151 (71%) were in favour of the traffic calming and 51 (24%) were against. 12 (6%) were either unsure on the speed reduction or had no opinion. Appendix F details the outcome of the Stage 2 consultation with affected residents

4.3.3 Appendix G illustrates these responses split by street in tabular form.

4.3.4 The majority of responses are in favour of the proposed scheme.

5. Financial, legal, equalities, climate emergency and other implications

5.1 Financial implications

The total estimated cost of the proposed 20mph scheme is £275,000 and is funded by the Transport Improvement Works budget in the Council's capital programme. There are no revenue implications arising from this report.

Signed: *Ammarah Mota, Accountant*

Dated: 5th March 2026

5.2 Legal implications

The Council as highways authority has powers to implement speed limit orders on the roads, in accordance with the provisions of the Road Traffic Regulation Act 1984 and associated regulations. The procedure and the statutory consultation requirements to be followed by the Council in making such an order are contained in The Local Authorities' Traffic Orders (Procedure) (England and Wales) Regulations 1996. Officers may seek advice on this procedure if required.

Signed: *Zoe Illiffe, Property Highways & Planning*

Dated: 11th March 2026

5.3 Equalities implications

The scheme has been designed to be inclusive, with specific benefits for the most vulnerable road users. It should have a positive impact for disabled and older people and children as these are particularly vulnerable to road traffic collisions. Slower speeds significantly increase the chance of survival in collisions and improve the confidence of older residents and parents of young children when walking in the neighbourhood. People with mobility impairments or visual impairments benefit from a calmer traffic environment, making it easier to cross roads. Reduced speeds allow for more reaction time for both drivers and pedestrians. Protected Characteristics under the Equality Act 2010 are age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual orientation

Signed: *Sukhi Biring, Equalities Officer*

Dated: 11th March 2026

5.4 Climate Emergency implications

Any positive effects from the 20mph schemes to address congestion will result in lower emissions and improved air quality.

Furthermore, the City Cycle Action Plan sets out 20mph zones as a strategic priority to meet its target of doubling every day cycling numbers. If 20mph zones and traffic calming in the city are successful in reducing congestion and improving road safety, this may have a positive impact on people's travel choices, leading to substantial numbers of current car trips changing to cycling and walking trips.

Phil Ball, Sustainability Officer

Dated: 5th March 2026

5.5 Other implications (You will need to have considered other implications in preparing this report. Please indicate which ones apply?)

No other implications.

7. **Summary of appendices:**

- Appendix A – Braunstone South - Proposed 20mph Speed Limit.
- Appendix B – Braunstone South - Proposed Traffic Calming – Braunstone Ave
- Appendix C - Braunstone South - Proposed Traffic Calming – Gooding Ave
- Appendix D - Braunstone South - Proposed Traffic Calming – Hallam Crescent East
- Appendix E – Braunstone South – Stage 1 Consultations
- Appendix F – Braunstone South – Stage 2 Consultations
- Appendix G – Braunstone South – Stage 2 Consultations – Street-by-Street.

8. Is this a private report (If so, please indicate the reasons and state why it is not in the public interest to be dealt with publicly)?

No

9. Is this a “key decision”? If so, why?

No
