Please summarise your concerns about this application:
Noise from the premises could cause noise nuisance to nearby residents.

Please give further details of why you believe this application will have an adverse effect on the licensing objectives

Complaints from the playing of amplified music and voice emanating from the premises have been received from nearby residents in the past, and whilst a verbal agreement has been given by the DPS to install a noise limiter, to my knowledge no such limiter has been installed.

Given that a review of the licence has been called for and there is a likelihood of further noise nuisance being caused, I would recommend that the following conditions be included in any future consent that may be given:-

- 1) That all external windows and doors be kept closed (apart from access and egress) when live and amplified music and voice is being played on the premises.
- 2) That all amplified music and voice be played through a sound limiting device set at a level to ensure that no noise detriment is caused to nearby occupiers. Such limiting device shall be maintained in accordance with the manufacturer's instructions.
