Further to the agenda for the above meeting which has already been circulated, please find attached the following:-

**8. NEW OPTIONAL GARDEN WASTE COLLECTION SERVICE**

Please find below the financial implications for the report circulated with the agenda.

“5.1 The initial stock of bins is funded by a Government grant to support the weekly collection of waste and recycling, through enhancing existing services and providing new ones. An annual charge of £30 per household is proposed, with an introductory discount and charges for additional bins. The service is expected to cover its direct operating costs once it has become established, and as take-up increases to contribute to the increased income target of £60k p.a. from optional services such as green waste collection approved in the Council’s 2012/13 revenue budget.

Colin Sharpe, Head of Finance, ext. 37 4081”
