Including the old village and much of the former parish of Evington, this area stretches from the eastern edge of the city centre to the boundary with Harborough. It includes redevelopment areas such as St Matthews and St Peters and one of the last greenfield estates built in the City, Thurnby Lodge. To the east of the railway station are some of the city's oldest suburbs, including the district known as Highfields.

Historical output census data	Source	Additional Information
Population 1991	1991 Census	Due to changes in geographical boundaries an approximation is used based on 2011 geographical boundaries for neighbourhood- and ward-level data.
Population 2001	2001 Census KS01 – Usual Resident Population	N/A

Definitions

2011 output census data	Definition
Overcrowded	A household is defined as overcrowded if there are fewer rooms than required. The number of rooms required is based on a standard formula.
Unemployment rate	A person aged 16-74 is defined as unemployed if he or she is not in employment, is available to start work in the next two weeks and has either looked for work in the last four weeks or is waiting to start a new job.
	The unemployment rate is the proportion of the economically active 16-74 year olds who are unemployed.
