09/12/2014	Mr A Uddin	Petition requesting the Council to extend the lighting for Eid to St Stephen's Road and for the Council to fully fund and install the lighting for Eid.	(p)	52	Stoneygate	Cllr Chaplin presented the petition to the Council Meeting on 22 January 2015.	Andrew L Smith	15 previous requests for festive lighting have been received in the last 5 years. The current budget is under extreme pressure to install and maintain the existing festive lighting displays. The estimated cost of purchasing and installing decorations on the 11 eleven lamp posts, as requested by the petitioners, is £33,000, but 7 lamp posts would need to be replaced if festive decorations were to be placed on them. In addition, the decorations' store is now at maximum capacity. The Council is keen to ensure that Eid and other significant religious festivals are properly celebrated with decorations and lights, and that we endeavour to ensure these are delivered in a fair way and focus efforts on lighting important streets where the maximum benefit for the wider community is likely to be derived. It has been suggested that decorations for the Mosque could be sought from ward funding.	Pro-forma returned by Scrutiny Chair who is content with the response.		GREEN

09/02/2015	Mrs M Marriott	Petition objecting to a proposed driveway on Emerson Close	(p)	19	Beaumont Leys		Andrew L Smith	The issues have been investigated and Ward Councillors comments on the proposed reponse has been requested by 9 March 2015. Planning permission was granted after considering comments received following the usual consultations. Given the location of the plot on a corner a vehicular access onto a turning head was a preferred option compared to an access near to a junction. The council could not have justified a refusal for the access from the turning head. The turning head is not expected to be used for parking and no further action can be taken to alter the decision to grant planning permission which and there was no statutory requirement to publicise the applications more widely.
