# Leicester, Leicestershire and Rutland's **Sustainability & Transformation Plan (STP)**

## UPDATE

Toby Sanders, STP Lead  
Leicester City Council  
Health and Wellbeing Scrutiny Commission  
9 November 2016

## LLR STP big issues

- We've reviewed our 'triple aim' gaps, current work programmes and experience of system change through BCT over recent years as well as national best practice/evidence (e.g. Vanguard)
- From this, we have five strands that we need to focus on:
  1. **Service Configuration to ensure clinical and financial sustainability**
  2. **Redesign Pathways to deliver improved outcomes for patients and deliver core access and quality**
  3. **Operational Efficiencies**
  4. **Getting the enablers right to create the conditions for success**

...plus on-going pathway redesign through existing BCT Workstreams

## What's included in the STP plan

The five elements	What's included
<b>1. New models of care focused on prevention, moderating demand growth</b>	place based integrated teams, a new model for primary care, planned care, an integrated urgent care offer.
<b>2. Service configuration to ensure clinical and financial sustainability</b>	(subject to consultation), acute reconfiguration, consolidating maternity provision onto one site, community hospitals reconfiguration.
<b>3. Redesign pathways to deliver improved outcomes for patients and deliver core access and quality</b>	long term conditions, improving wellbeing, increase prevention, self-care and harnessing community assets, further work to improve cancer; mental health and learning disabilities.
<b>4. Operational efficiencies</b>	reduce variation and waste, provide more efficient interventions and support financial sustainability - the Carter recommendations; provider cost improvement plans, medicines optimisation and back office efficiencies.
<b>5. Getting the enablers right</b>	to create the conditions of success –including workforce; IM&T; estates; workforce, engagement and health and social care commissioning integration

**Better care together**

Leicester, Leicestershire & Rutland health and social care

## What will be different for patients

- Patients will have more of their care provided in the community by integrated teams with the GP practice as the foundation of care.
- Patients will only go to acute hospitals when they are acutely ill or for a planned procedure that cannot be done in a community setting.
- Patients will have the skills and confidence to take responsibility for their own health and wellbeing.
- More people will be encouraged to lead healthy lifestyles to prevent the onset of long term conditions.
- Screening and early detection programmes will enable more people to be diagnosed early to enable improved management of disease and to reduce burden.
- Professionals will have access to a shared record to improve the quality and outcome of patient care.
- GPs will increasingly use their skills to support the most complex patients and routine care will be delivered by other professionals.
- General Practice will be increasingly working in networks to improve resilience and capacity.
- The system will be in financial balance, be achieving its performance targets and operate as “one system”.
- Delivery of RTT, A&E, Ambulance, Cancer, mental health targets. We will also reduce out of area placements.
- Services delivered from fit for purposes premises.

## Recent update

- Submitted the next draft of the STP in October
- Continued engagement process whilst awaiting feedback
- Feedback due on our submission from NHS England in the next couple of weeks.

## Next steps

- Once the final version is approved by NHS England, a date for publication will be agreed and the document will be published, along with a public facing summary
- Full LLR STP also made public through Boards in Nov/Dec (following NHSE assurance)
- Transition to strengthened governance and delivery arrangements from Nov
- Translate into 2 year Operational Plans & provider contracts by end December
- Anticipate NHSE approval to initiate formal public consultation on some elements in early 2017
