

Governing Bodies

Health and Wellbeing
Boards

SLT will be dually accountable to the boards, governing bodies and /or executives of its members as well as to the HWBs for LLR.

It will make recommendations to individual boards, governing bodies and executives upon specific issues, to ensure local decisions (e.g. capital investment projects) are informed by a system view and priorities.

Members of SLT will ensure visibility of issues and decisions to be considered by SLT to ensure that the work of the SLT is informed by the agreed position of their individual organisations.

SLT

Stakeholder groups and existing working groups will inform the considerations and work of SLT.
