72. CURRENT DEVELOPMENT PROPOSALS

A) 341 LONDON ROAD, MARTIN HOUSE

Planning Application [20180703](#)

CHANGE OF USE FROM CARE HOME (CLASS C2) TO COMMUNITY AND EDUCATION FACILITIES (CLASS D1); CONSTRUCTION OF SINGLE AND TWO STOREY EXTENSIONS TO SIDE AND REAR; ACCESS RAMP; ALTERATIONS

The panel were supportive of the property being brought back into use and were content with the proposed use. However, they raised various concerns with the design of the proposed development. The panel thought that the access

arrangements were over engineered and could be simplified to reduce the impact. They did not object to the proposed parking close to London Road, subject to a suitable grass grid system being used. If the boundary treatment was to be altered, the panel requested that the design of the existing gate piers was matched in a wider entrance. The panel further requested that the avenue of trees be protected and, where trees have been lost, re-planted. Significant concerns were raised with the proposed rear extension, which was considered to be out of scale, overly dominant, lacking contextual design cues and of materials that were not appropriate. Although not seeking a pastiche, the panel felt the existing extension did not respond well to the existing rear elevation and that red brick was not an appropriate approach. A lighter and more modern style was suggested. The loss of the rear bay was considered to be harmful. The panel considered the existing conservatory to be of value and it was suggested that the facilities housed in the extension could perhaps be located in a new freestanding building in the rear space. The panel did not object to the proposed front extension.
